GLOBALNEGOTIATOR  
Business Publications

The Due Diligence Report includes a format and sample of information used in business transactions such as a merger or acquisition, partnership, investment, etc. The report requires research carried out prior to a financial transaction to assess commercial and legal risks, as well as opportunities. The findings of the investigation and analysis are summarized in a report which is known as the Due Diligence Report. This report is sent as an internal document to member of the executive team who are evaluating the transaction and is a requirement for closing the deal. **The Due Diligence Report** focuses on corporate structure, company's financial data, information about business operations and sales and marketing analysis. It also includes data about management staff, risks, legal issues, etc. Additional categories should be added as necessary depending of the nature of the due diligence in question.
