

Writing Introductions for Essays

Essay introductions should attract the reader and provide some information about what is to come. However, how you begin your essay depends on your rhetorical situation, which refers to your academic purpose and audience. The introduction typically provides your argument and context for that argument by explaining how your work fits into a larger conversation, addresses specific questions, or explores a new aspect of the subject.

Consider your rhetorical situation.

Understanding the assignment is imperative to your success. Consider why you are writing, what your writing should accomplish, and what your stance on your topic is. Think about the purpose of your assignment. Is your instructor evaluating your creativity, critical thinking skills, writing ability, or knowledge of a topic? In your essay, are you supposed to persuade, explain, or entertain? Are you asked to analyze, compare, prove, or describe something? Think about whom your audience is. You will want to present evidence your audience will find persuasive and avoid repeating information they already know. You also need to choose the appropriate language.

Open your essay in an engaging way.

The opening of your essay should generate interest about the topic. Often students are advised to begin broad, and they take this to mean that a sweeping statement—like “Sports mean many things to many people”—makes a good opener. But such sweeping claims do little to help readers focus their attention on your argument. Instead, consider an opening strategy that will engage your audience in your subject, disposing them to listen to the argument.

A Quotation

Because this method is often overused and poorly used, make sure to choose an appropriate quotation that directly or indirectly relates to your topic. Your explanation should provide relevant background and contextual information.

Opening a Political Discussion with a Quotation

If there is a single point of consensus in this heated political moment, it is that everyone loves the Constitution. “Conservative or liberal, we are all constitutionalists,” Barack Obama wrote in *The Audacity of Hope*. Ted Cruz, the junior senator from Texas, who emerged as a principal antagonist of the President’s during the government shutdown, has often said much the same thing. The Founding Fathers, Cruz said, “fought and bled for freedom and then crafted the most miraculous political document ever conceived, our Constitution.” —Jeffrey Toobin, “Our Broken Constitution,” *The New Yorker*, December 9, 2013

Writing to Learn: An Introduction to Writing Philosophical Essays Anne Michaels Edwards, Anne Edwards, 1999-10-21 Based on the premise that one of the best ways for a student to understand a topic is to write about it, this is a book that teaches students how to write philosophical essays. Geared toward first time philosophy students, the book is a supplement for any Philosophy course in which the instructor requires the students to write essays. Most of the work involved in a Philosophy class is reading assigned material, thinking about it, and then writing about it, whether on an exam or in an essay written outside of class. This book is designed to make all three of those activities easier. Writing to Learn begins with helpful hints on how to read philosophy, chapter 2. In chapters 3 through 7, students are guided through several different types of essays, beginning with the simplest summaries that demonstrate knowledge and understanding, and progressing through essays that require the application of theories to new situations, the analysis and evaluation of arguments used, and finally the synthesis of several
