

Constructive Feedback Rubric

“Feedback needs to provide information specifically relating to the task or process of learning that fills a gap between what is understood and what is aimed to be understood.”
(Hattie, and Timperley 81-112)

Feedback is valuable and useful when...

Who	Someone provides it with the appropriate audience in mind. <i>Who is going to receive this information: a peer, an instructor, the program director?</i>
When	It is given as soon as possible after performance and it allows for response and interaction. <i>Will the feedback still be relevant to the audience?</i>
Why	There is purpose awareness. <i>What is my audience going to do with this information: make changes in the draft, adjust teaching strategies, add a class to the program?</i>
What	It is focused and provides specific information with clear evidence of appropriate content. <i>What are the goals?</i> <i>What progress is being made towards that goal?</i> <i>What activities need to be undertaken to make better progress?</i>
How	It is perceived as well-intentioned, respectful (devoid of inflammatory language) and knowledgeable. <i>Is what I am saying specific and useful to the audience?</i> <i>Am I addressing the content in a focused, constructive, and respectful manner?</i>
