

Goal	Currently Jane is...	Strategy for moving forward	Goal is achieved when...
<b>Organization and Planning</b>			
1. Keep accordion folder, writing binder, and computer desktop organized.	...organized, but in years past papers have become lost as the year has progressed. Additionally, her desktop has been filled with many files, not specifically named. Jane still needs support reviewing what was filed to make sure it has been filed correctly.	Time will be spent each session filing new handouts correctly in devices (folders, accordion folder, and/or binder). Sections/folders will be segregated by color for ease of identification and coordinated with colored note cards and paper when possible. Monthly reviews of sections will be instituted to keep devices manageable. Names and colors of computer files will also be generated concurrently so on-line work is coordinated and aligned.	...binder, folder, and desktop are neatly and accurately organized. Jane will be able to maintain these systems independently.
<b>Writing</b>			
2. Write a focused, five-paragraph essay.	...able to draft an essay, but has difficulty with organizing thoughts, as well as fitting thoughts into a structured format.	Jane will learn semantic webbing techniques, as well as use graphic organizers to help focus ideas. She will also build upon her ability to talk through her ideas by utilizing dictation software to record her thinking. Finally, support will be given to techniques taught by Ms. Smith in her school's writing class.	...Jane will be able to independently draft a focused, five paragraph essay. Each paragraph will contain a topic and concluding sentence, as well as supporting details. In addition, she will be able to focus her papers around a thesis.
<b>Sustaining and Focusing Attention</b>			
3. To structure work sessions so that optimal learning is happening during the time available.	...falling off task or becoming easily distracted when working on a low-interest activity. This leads to inaccurate or incomplete work, or work that takes much longer than necessary to complete.	Jane will learn how to divide work time into manageable chunks. For example, an hour's work block might be broken up into three, 15 minute sessions with five minute breaks in between. Each session will cover steps needed to be successful with what work is assigned. She will also learn targeted mindfulness techniques to become more aware of when she is falling off task, and tools to bring her attention back when distracted. Finally, Jane will learn techniques to make low interest work engaging, including game design and inquiry-driven, associative exploration.	...Jane will be able to design work time so that she is productively completing assignments. She will be able to identify when she is falling off task and utilize strategies that can help her better attend to her work.
