Re:	NEB Safety Compliance Audit		

The National Energy Board recently completed the final leg of their CMPSO facility inspection, January 24 - 26, 2007. The following sites: Stump Lake, Kingsvale, Hope, Watleach, Port Kells, were audited for safety compliance.

The findings of the audit, as identified in the attached reports, can generally be categorized as minor in nature with most items falling into the housekeeping category.

I wish to thank the NEB field inspection staff and construction crews that contributed to the success of the safety audit and their commitment to conducting their work safely.

The crews at the Stump Lake and Hope stations deserve special recognition for their contribution to the success of the NEB safety audit with no findings reported. Given that audits, by nature, are predisposed to findings, this is a rare occurrence.

I would like to thank David Boyden, Trevor Stevenson, and Paul Branton at the Hope station for their safety leadership and Jack Allard, Mitchell's Site Superintendent, along with Mitchell's subcontractors for their efforts. In addition, thanks go to Mike Baker, Bryn Sukolowsky, Joe Chelival, and Kevin Bakker for their leadership at the Stump Lake station as well as Don Reynolds, Mitchell's Site Superintendent and their subcontractors at this site.

Again, thanks for your efforts!
