

INDIVIDUAL EDUCATION PROGRAM (IEP)
Kentucky County Public Schools
500 Main Street
Riverview, KY 40000

Meeting Date: 05/16/2011	Start Date: 05/16/2011	Review (End) Date: 05/15/2012
Student's Full Name: Tyson Smith	SSID: 554556	
Date of Birth: 09/13/1998	Grade: 07	
School: Kentucky Middle School	Disability: Hearing Impairment	
Age: 12		
Education Performance Areas Assessed	Present Levels of Academic Achievement and Functional Performance, including how the disability affects the student's involvement and progress in the general curriculum (For preschool children include the effect on participation in appropriate activities. Beginning in the child's 3rd grade year or when the child has reached the age of 14, a statement of transition needs is included.)	
Communication Status	<input type="checkbox"/> Performance commensurate with similar age peers. <p>Tyson has a bilateral hearing loss and wears 2 personal hearing aids. He communicates orally and occasionally uses signs to clarify his speech. LANGUAGE: On standardized language assessments, Tyson scored in the well below average range. Receptively, strengths were noted in his ability to ask for repetition and to identify familiar items quickly. He has difficulty identifying age-appropriate vocabulary (i.e. liquid, thing, emotion, and reflection). Expressively, he was asked to name pictures and did not know age-appropriate items (feeling, doctor, statue, and wrench). Strengths were also noted in his ability to complete spoken sentences, have promotions, answer simple questions, and follow one-step directions. However, he had difficulty asking questions, using grammar, using superstatives, understanding, and using abstract words, and comprehending short stories. Informal assessments showed that Tyson was able to respond to questions with 60% accuracy and was able to answer most basic "who" and "what" questions but had difficulty with "where" and "when" questions. Tyson was unable to provide synonyms for given words (0%). He was able to provide antonyms with 50% accuracy. When asked to explain similarities and differences between common words, he was able to provide similarities with 80% accuracy but had greater difficulty providing differences (40%). Tyson was unable to provide solutions when given basic problem solving scenarios (0%). Tyson was able to provide a category label for common objects with 70% accuracy. Tyson was able to define the function of objects with 20% accuracy but was unable to provide explanations for common daily activities (0%). SPEECH: Tyson's speech is intelligible to most listeners when the context is known and they listen carefully. His voice quality has a hypernasal resonance. Tyson often speaks rapidly and with a loud voice. Tyson's speech sound production errors include voiced substitutions (vow, dth, th), voiced distortions (hh, ch) and final consonant deletions. In speech therapy, when given a model, he can produce the correct sound with 80% accuracy but it only transfers to connected speech 50% of the time. Overall, Tyson displays severe speech sound production deficits. Tyson has been using speech-to-text and text-to-speech software to facilitate communication with peers. He is motivated to use this means of communication and is aiming to develop his skills in use of this technology. IMPACT STATEMENT: Significant deficits in his articulation skills and expressive/receptive language impact his ability to communicate with peers and adults and his ability to participate in classroom discussion. Additionally, language deficits impact his acquisition and use of age-appropriate grade level vocabulary.</p>	

Sample Iep For Hearing Impaired Student

B. Luetke-Stahlman,John Luckner

Sample Iep For Hearing Impaired Student:

Rehabilitative Audiology Jerome G. Alpiner, Patricia A. McCarthy, 2000 *Rehabilitative Audiology Children and Adults* balances theory with practical applications that demonstrate how rehabilitative principles work in the clinical setting Completely revised the Third Edition of this popular text offers a large number of tables appendices and illustrations making the material easier to learn and retain The content is organized to highlight various areas of concern and new advancements in cochlear implants and assistive devices are included to help your patients get the most out of the newest technologies Special needs of children early identification of hearing loss assessment and intervention with pre school and school age children and management of hearing problems in the educational setting are covered in detail Resources in Education, 1998-04

Today's Hearing-impaired Child--into the Mainstream of Education Vira J. Froehlinger, 1981
