

## State of Our Schools Speech by Superintendent Ann Clark

Thank you, Steven. Good morning, everyone. It's a pleasure to welcome all of you to our annual State of Our Schools event. Thank you for making time to join us.

As Steven told you, we first met when he was in middle school at Alexander Graham and I was the principal there. It has been my privilege to follow his journey from student to successful adult. We want every student in CMS to make that journey successfully. Ensuring that every child completes the journey is the mission of CMS. All of us in this room today care about our children and their education.

Educating a child is a process that begins at home and continues all the way through school and into the workplace and the wider world. Education cannot be accomplished or measured in a single day, a single test or a single year. It's a lifelong journey that builds on success in the early grades to create a foundation for learning later on. It's a continuum of learning and support that begins when a child enters school and continues all the way through high school and beyond. So many people are needed along the way. Parents, teachers, school staff, administrators all have a role to play. So do many others – volunteers, working professionals, citizens, elected officials.

We are fortunate to have the support of our district employees and the wider community. I've asked seven people who are involved with CMS to tell their stories during today's program and they are here on stage. Let me introduce them now and then you'll hear from them as we go along. I will introduce them starting from your left. Psalms Olivia Phifer White is a senior at Harding University High School. Next to her is Katie B. Morris, who chairs the Belk Foundation. Mark Rohlinger is the plant technical director for Bosch Rexroth in Charlotte. Lecia Shockley is the 2014 CMS Teacher of the Year and teaches second grade at Selwyn Elementary. Michael DeVaul is senior vice president of organizational advancement for the YMCA and the proud parent of two CMS graduates. Carmen Concepcion is the principal at Oaklawn Language Academy. Justin Ashley is a social studies teacher at Community House Middle School. We are very glad to have all of you with us today – thank you for taking part in our State of Our Schools event.

The sixth edition of Clinical Methods and Practicum in Speech Language Pathology remains a vital resource for students in speech language pathology who are about to begin their clinical practicum. The book is divided into two major sections: clinical practicum and clinical methods in speech language pathology. These sections provide coverage of the structural and functional aspects of clinical practicum in a variety of settings. The book emphasizes that clinical practicum is an exciting learning experience. The students will understand what is expected of them in each setting and what they can expect from their clinical supervisors. The book also gives an overview of treatment methods that apply across disorders. With this book, students will be better prepared to meet the exciting and yet often challenging task of providing ethical and effective services to children and adults with communication disorders. Clinical supervisors may find the book helpful in understanding their own roles and responsibilities better so that they can create a productive and exciting clinical practicum experience for their student clinicians. Clinical Methods and Practicum in Speech Language Pathology offers a single and comprehensive source of information that will help establish clear expectations for both student clinicians and the clinical supervisors.
