Partnering for Recovery in Mental Health Janis Tondora, Rebecca Miller, Mike Slade, Larry Davidson, 2014-05-19

Partnering for Recovery in Mental Health is a practical guide for conducting person and family centered recovery planning with individuals with serious mental illnesses and their families. It is derived from the authors' extensive experience in articulating and implementing recovery oriented practice and has been tested with roughly 3 000 providers who work in the field as well as with numerous post graduate trainees in psychology, social work, nursing and psychiatric rehabilitation. It has consistently received highly favorable evaluations from health care professionals as well as people in recovery from mental illness. This guide represents a new clinical approach to the planning and delivery of mental health care. It emerges from the mental health recovery movement and has been developed in the process of the efforts to transform systems of care at the local, regional and national levels to a recovery orientation. It will be an extremely useful tool for planning care within the context of current health care reform efforts and increasingly useful in the future as systems of care become more person centered. Consistent with other patient centered care planning approaches, this book adapts this process specifically to meet the needs of persons with serious mental illnesses and their families. Partnering for Recovery in Mental Health is an invaluable guide for any person involved directly or indirectly in the provision, monitoring, evaluation or use of community based mental health care.

Recovery from Schizophrenia Courtenay M. Harding, 2024. Included are chapters of programs promoting forward movement as well as stories from the lives of patients many of whom got their lives back and the power of hope.

Mark, Mutuality, and Mental Health Simon Mainwaring, 2014-08-11. An incitement to re-assess how society relates to persons with poor mental health. Mainwaring explores the societal contexts of those who suffer poor mental health and in particular the relational dynamics of how identity, agency and dialogue are negotiated in personal encounters. This work seeks to serve as an experiment such that interested readers might better understand the dynamics of relational power that pervade encounters with persons with poor mental health. Features Foucauldian analysis of the relational dynamics of poor mental health used to re-imagine hegemonic relational dynamics. Close readings of encounters between individual characters to evaluate how mutuality operates in those encounters. Study of mutuality as it has emerged in mental health literature, feminist theologies and theologies of disability.
