Clinical Handbook of Psychological Consultation in Pediatric Medical Settings Bryan D. Carter, Kristin A.

Kullgren, 2020-03-20 This handbook examines pediatric consultation liaison psychology in pediatric medical settings. It offers a brief history of pediatric psychologists' delivery of consultation liaison services. The handbook provides an overview of roles, models, and configurations of pediatric psychology practice in diverse inpatient and outpatient medical settings. Chapters discuss the most frequently seen major pediatric conditions encountered in consultation practice. Coverage includes evaluation, intervention, and treatment of each condition. Each clinical condition addresses the referral problem in the context of history and family dynamics. In addition, chapters address important aspects of the management of a consultation liaison service and provide contextual issues in delivering evidence-based services in hospital and medical settings. Topics featured in this handbook include: The role of assessment in the often fast-paced medical environment; Modifications of approaches in the context of disorders of development; Consultation on pediatric gender identity; The presentation of child maltreatment in healthcare settings; The use of technological innovations in pediatric psychological consultation; Important ethical considerations in consultation liaison practice. Clinical Handbook of Psychological Consultation in Pediatric Medical Settings is a must-have resource for clinicians and related professionals as well as researchers, professors, and graduate students in pediatric and clinical child and adolescent psychology, pediatrics, social work, developmental psychology, child and adolescent psychiatry, and related disciplines.

SADC Gender Protocol 2015 Barometer Morna, Colleen Lowe, Dube, Sifiso, 2016-02-22

In August 2008, Heads of State of the Southern African Development Community adopted the ground-breaking SADC Protocol on Gender and Development. This followed a concerted campaign by NGOs under the umbrella of the Southern Africa Gender Protocol Alliance. The SADC Gender Protocol is the only sub-regional instrument that brings together existing global and continental commitments to gender equality and enhances these through time-bound targets. Aligned to Millennium Development Goal Three, the original 28 targets of the Protocol expire in 2015. Now that 2015 is here, we need to step back, assess, and reposition. In June 2014, SADC Gender Ministers agreed to review the targets of the Gender Protocol in line with the Sustainable Development Goals (SDGs). In May this year, ministers added that they want the Protocol to be accompanied by a Monitoring, Evaluation, and Results Framework. The 2015 Barometer shows that implementation is now the biggest missing gap in the quest for gender equality. Now is the time to strengthen, resolve, reconsider, reposition, and re-strategise for 2030. SADC GENDER PROTOCOL BAROMETER 2015 2015 is here.
