with a call for a decolonial African agency that should champion an epistemic rebellion against the neo liberal and neo classic economic traditions that have been historically deployed to justify Africa's subordinated position in the global economic governance. This book comes at a moment in time when Africa is ready to become a Rule Maker not a Rule Taker. The analysis Dr Moyo presents having been in the front line of public policy and international negotiations demonstrate the need for Africa to re-write the rules to foster our own Transformation.
