Black Passport Stanley Greene, 2009 The archetype of the war correspondent is freighted with an outsize heroic mythos to which world renowned conflict photographer Stanley Greene is no stranger Black Passport is his autobiographical monograph cum scrapbook and it transports the viewer behind the news as Greene reflects upon his career oscillating between the relative safety of life in the West and the traumas of wars abroad This glimpse of the polarities that have comprised Greene's life raises essential questions about the role of the photojournalist as well as concerns about its repercussions what motivates someone to willingly confront death and misery To do work that risks one's life Is it political engagement or a sense of commitment to telling difficult stories Or does being a war photographer simply satisfy a yearning for adventure Black Passport offers an experience that is both exceptionally personal and ostensibly objective Built around Greene's narrating monologue the book's 26 short nonsequential scenes are each illustrated by a portfolio of his work
