## Sars 2015 Provisional Tax Guide:

**BRICS and International Tax Law** Peter Antony Wilson, 2016-04-24 With the ongoing expansion of outbound foreign direct investment FDI in the countries representing the BRICS economic bloc Brazil Russia India China and South Africa and with all of them at the same time listed among the top seven countries plagued by tax evasion and avoidance in the guise of illicit outflows the five governments both individually and through cooperative initiatives have devised new international tax strategies that are proving to be of great interest and value to other countries both developing and developed. The core of these strategies addresses the necessity of stemming the outflow of revenue while strongly supporting FDI both inbound and outbound while complying with international obligations including those arising from human rights laws. This book is the first in depth commentary on this new and evolving area of international tax law. The detailed analysis covers the entire field of BRICS international tax law considering topics such as the following information exchange procedures and pitfalls response to the OECD's Base Erosion and Profit Sharing BEPS initiative role of bilateral and multilateral double taxation conventions including the Multilateral Instrument and the Bilateral Investment Treaties thin capitalization transfer pricing controlled foreign corporation rules shortcomings related to authorities limited manpower international audit and investigation procedures the BRICS approach to residence and mandatory and binding arbitration and the BRICS approach to shaping the developing world's international tax system. Notably the author personally conducted interviews with senior international representatives of the BRICS tax authorities as well as with leading BRICS academics and practitioners. Tax cases together with human rights and investment cases and administrative guidelines in all five countries are also included in the analysis. The study concludes with recommendations for improving each of the five countries tax law and procedures especially in the area of dispute resolution. The author's goal is to extend the existing body of knowledge of the BRICS international tax laws in order to assist in developing an understanding of the BRICS approach to dealing with evasion and avoidance an approach which facilitates both outbound and inbound FDI simplifies tax authority administration and establishes a basis for resolving international disputes which is compatible with sovereignty. In achieving this objective the author has produced a major work that is of immeasurable value to tax advisers government and governance officials academics and researchers both in developing international taxation strategies and in helping to resolve disputes with tax authorities.

**KEY MESSAGES** Setting Discussions took place for the first time since the handover of Macao SAR from Portugal to China in 1999. Prudent macroeconomic management has underpinned rapid development in the territory which is now the world's largest gaming center. As a small open and tourism dependent economy Macao SAR is currently also benefiting from loose global monetary conditions and a Mainland related boom. Outlook and risks Growth should stay strong over the next few years at 8.10 percent buoyed by gaming exports and investment with inflation remaining around 5.51.2 percent. However the

economy is vulnerable to external shocks in particular a slowdown in tourism due to shocks in the Mainland or Hong Kong SAR or other setbacks to the global recovery The buoyant property market could also correct if demand fundamentals shift or interest rates rise abruptly with the withdrawal of unconventional monetary policy abroad Macroeconomic policies The policy stance is appropriate with scope for further tightening of macroprudential policies should property prices continue to rise sharply If downside risks materialize targeted fiscal stimulus should be used to buttress growth In the event of a severe property downturn some countervailing measures could be cautiously unwound The currency board is the best arrangement for Macao SAR Financial stability Important progress has been made in strengthening financial stability in line with the 2011 FSAP recommendations Prudential measures should focus on managing potential credit and liquidity risks from a gaming slowdown and the property sector as well as spillovers from shocks in the Mainland and Hong Kong SAR Longer term challenges Looking further ahead Macao SAR s public finances face a moderation in gaming revenues juxtaposed against spending needs from population aging A sovereign wealth fund to manage part of the territory s fiscal reserves and medium term budgeting could therefore be useful As the gaming sector matures economic diversification toward other services will be key for stable growth *Suid-Afrikaanse Hofverslae ,2015*

As a result of resumption of sovereignty over Hong Kong and Macao as well as the uncertain relationship between the Mainland and Taiwan China has become a country composed of peculiar political compounds resulting in four independent jurisdictions This makes inter regional legal cooperation a complicated yet compelling topic Divided into five parts this book considers possible solutions to problems in China s inter regional cross border insolvency cooperation These solutions are developed on the basis of two groups of comparative studies including comparison among the cross border insolvency systems of the four independent jurisdictions in China and comparison between EU Insolvency Regulation and the UNCITRAL Model Law The author discusses the advantages and disadvantages of the two systems and presents original recommendations for the way forward The book will be a valuable resource for academics and policy makers in insolvency law Asian law and comparative law
