As with my other books on SAP, this book also follows a case study approach to make your learning easy. Efforts have been taken throughout the book to guide you step by step in understanding how to configure your SAP system to meet your exact business needs. Each configuration activity has been discussed with appropriate screen shots from an SAP system and illustrations to help you see what is being discussed in that activity step. You will see a lot of additional information provided across the Chapters and the Sections to help you comprehend a topic or a configuration setting or a concept better. The entire content of the book, vide various Chapters, has been presented as in SAP IMG Implementation Guide for easy reference. You will come across with appropriate menu paths and Transactions to help you to navigate the various activities. The coverage includes Case Study, SAP General Ledger Accounting Overview, Features, Functionalities, Pre-requisites for Configuring SAP G/L Accounting, Master Data, Business Transactions, Periodic Processing, Preparation for Productive Start, Information System. The book starts with a case study setting up the tone for further discussions, outlining the various business processes that you will be configuring towards implementing SAP G/L Accounting for your business. You will come across with the case study brief per configuration activity step in each Chapter. We discuss the overview of SAP G/L Accounting before moving on to discuss its important features and functionalities. You will learn about extensibility, ledger concept, document splitting, parallel accounting, segment reporting, fast close and integration of SAP FI with SAP Controlling. We then move on to discuss the pre-requisites for configuring SAP G/L Accounting. Here you will learn about the important FI general settings and also on how to configure the fields, ledgers and currencies. You will learn more about parallel accounting and the FI integration with CO. While on G/L master data, we discuss the G/L account master data, the profit center master data and segment master data. We bring out in detail the preparations that you need to make for creating these master data, besides elaborating their creation and processing. You will then be taken to learn about the functionality as well as the configuration of G/L business transactions, including document splitting, open item clearing, bank account interest calculation and adjustment posting reversal. In periodic processing for G/L, you will learn about the various closing operations like check count, value reclassification, allocation and carry forward. We then discuss the preparations that you need to make for productive start of SAP G/L Accounting system. You will learn about the preparations in detail for new implementation as well as for migration from an existing non-HANA SAP system. Finally, towards the end, we discuss the G/L information system. You will learn about the various G/L reports that are available for your business, including the drilldown reports and reports created with Report Painter, Report Writer. In all, you can use this book as a desktop reference or a refresher for configuring SAP G/L Accounting. As the Chapters have been progressively elaborated, you will find the book very informative and easy to read.

hotspots frontiers and emerging trends of superabsorbent polymer - Nov 30 2022

web superabsorbent polymer sap is a kind of functional macromolecule with super high water absorption and retention properties which attracts extensive research and has wide application especially in the areas of hygiene and agriculture with reference to the web of science database the sap research literature from 2000 to 2019 is reviewed both

pdf super absorbent polymers researchgate - May 25 2022

web dec 15 2016 superabsorbent polymers short sap are special polymers that are able to absorb many times more water than their own weight within short time they can even store water when exposed to

microwave assisted hydrothermal decomposition of super absorbent polymers - Apr 04 2023

web absorbent hygiene products contain a super absorbent polymer sap as one of the main constituents that is not easily biodegraded or recycled currently the vast majority of the material is landfilled after a single use therefore it is highly

desirable to develop technology to recycle and reuse these polymers in this paper the depolymerization of sustainable bio based superabsorbent polymer poly acs - Aug 08 2023

web apr 5 2022 abstract in this study an environmentally friendly superabsorbent hydrogel produced from the cross linked poly itaconic acid pia superabsorbent polymer c pias based on itaconic acid ia was prepared using the radical polymerization method with potassium persulfate as an initiator and poly ethylene glycol diacrylate as a cross

boosting oxygen reduction reaction kinetics by acs - Apr 23 2022

web nov 9 2023 in the energy conversion context the design and synthesis of high performance metal free carbon nanomaterials with topological defects for the oxygen reduction reaction orr are essential herein we first report a template assisted strategy to fabricate carbon defect electrocatalysts with rich vacancy coupling pentagons vp as
