

## What Are SAP End User Manual

It is the same for every other modules although here I reference it mainly for SAP HR.

- 1) You should understand which targeted group for the end-user training is for. Do they have any computer background or not.
- 2) In what way they are going to make use of the manuals supplied to them during the course of training.

Let us focus on how to prepare manuals:

In the client side, End Users are not permanent. If they get any better job outside they will resign and go out. Even if you train them well, again the end-user team disappears after some time. That is why implementing company( Client ) expects SAP Consultants to prepare documents which are self explanatory (even to a layman in SAP) and study themselves and use the sap easy access very comfortably.

Hence we should prepare a document which explains the following things comfortably:

- A) All the buttons and Screens we have in sap and its importance for an end-user.
- B) All the transaction codes used by end user.
- C) The STEP by STEP usage methodology with screen shots and explanatory foot notes for each Transaction code.
- D) Prepare a book a table and columns which should have the following information:
  - Sl. NO.
  - Transaction Code
  - Navigation path
  - Use of the Code
  - Expected Result
  - Achieved Result
  - Remarks/Any Comment
- E) Highlight the common troubles during the usage of SAP by an end- user and give the solutions (ready to use)  
These problems you can come across while giving the in house training for the end-users. You just place them at one place and publish it for their usage in future for any of their new joinees as an end-user.
- F) Every consultant is aware that the entire Organisational Management is with end user only. Means consultant should train the end user in entire OM.
- G) We should inform the importance of info types and usage for our purposes at expert mode, PA30, PA40 etc..
