## Global Trend Time Travel Paradox:

Jewish Fantasy Worldwide Valerie Estelle Frankel, 2023-04-04 Jewish Fantasy Worldwide Trends in Speculative Stories from Australia to Chile reaches beyond American fiction to reveal a spectrum of Jewish imagination. The chapters in this collection cover speculative works by Jewish artists and about Jewish characters from a broad range of national contexts including post Holocaust Europe the Soviet Union Israel South America French Canada and the Middle East. The contributors consider various media including novels short stories film YouTube videos and fanfiction. Essays explore topics ranging from the ancient Jewish kingdom of Khazaria to modern university classes and the revival of Yiddish to the breadth of LGBTQ representation. For scholars and fans alike this collection of essays will provide new perspectives on Jewish presences in speculative fiction around the world.

**Shifting Mobility** Dewan Masud Karim, 2023-12-01 In the face of resource depletion environmental changes lifestyle changes demographic and digital adaptation old ideologies of city building and expensive and complex automobility solutions are in freefall. These changes are creating severe friction between the old and new paradigms. This book provides new perspectives through the process of ideological disassociation and concepts of human mobility code. The basic premise of the book human mobility is an essential component of our creativity that comes from our unconscious desire to become a part of a community. Several new concepts in the book starts with the hallmark of new discovery of human mobility code and its implications of urban mobility boundary systems to stay within safe planetary zone. A new discovery of human mobility code from comprehensive research finding prove that each individual develops a unique mobility footprint and become our mobility identity. Beyond individual hallmarks human develops collective mobility codes through interaction with the third space on which entire mobility systems lie and are created by the fundamentals of city planning and the design process. Readers are introduced to an innovative mobility planning process and reinvention of multimodal mobility approaches based on new mobility code while formulating new concepts practical solutions and implementation techniques tools policies and processes to reinforce low carbon mobility options while addressing social equity environmental and health benefits. Finally the book arms us with knowledge to prevent the disaster of full technological enlightenment against our natural human mobility code.

**The Decline Effect** Dean Brooks,2023-01-23 A crisis is coming for everyone who uses math and science For decades now the classical model of probability the indifference principle and the Gaussian distribution has been breaking down and revealing its limitations in fields from economics to epidemiology Now a new approach has revealed the underlying non classical principle behind all these anomalous laws Pareto's law of elite incomes Zipf's law of word frequencies Lotka's law of scientific publications Kleiber's law of metabolic rates the Clausewitz Dupuy law of combat friction Moore's law of computing costs the Wright Henderson cost law Weibull's law of electronics failures the Flynn Effect in IQ scores Benford's law of digit frequencies Farr's law of epidemics Hubbell's neutral theory of biodiversity Rogers law of innovation classes Wilson's law of

island biogeography Smeed's law of traffic fatalities The general law behind all these particular laws and countless others is the decline effect As a system ages or grows in size the rules of probability subtly change Entropy increases rare items become rarer and average performance measures decline The human meaning of a decline may be positive decreasing costs falling epidemic mortality or negative lower customer loyalty decreasing efficiency but the mathematical pattern is always the same The implications are enormous as these examples show All epidemic diseases decline in infectiousness and in lethality HIV AIDS went from a highly infectious 95 percent fatal disease to a survivable condition with a latency of decades COVID 19 went from a death rate of 7 percent in early 2020 to under 2 percent in 2022 Hereditary dynasties around the world declined smoothly in lifespan from hundreds of years to tens of years When democracies replaced monarchies the decline in spans of party control continued
