**World History** Elisabeth Gaynor Ellis, Anthony Esler, 2014      America: History of Our Nation Adapted Interactive Reading and Notetaking Study Guide 2007c Jim Davidson, Michael B. Staff, Prentice Hall Direct Education Staff, 2005-08 This edition was developed specifically for courses covering up to the Civil War or Reconstruction The text can also be used for the first part of a two year American history course      *McDougal Littell World History: Patterns of Interaction* McDougal Littell, 1998-11      Secular Assemblages Marek Sullivan, 2020-01-09 In this book Marek Sullivan challenges a widespread consensus linking secularization to rationalization and argues for a more sensual genealogy of secularity connected to affect race and power While existing works of secular intellectual history especially Charles Taylor's *A Secular Age* 2007 tend to rely on rationalistic conceptions of Enlightenment thought Sullivan offers an alternative perspective on key thinkers such as Descartes Montesquieu and Diderot asserting that these figures sought to reinstate emotion against the rationalistic tendencies of the past From Descartes's last work *Les Passions de l'ame* 1649 to Baron d'Holbach's *System of Nature* 1770 the French Enlightenment demonstrated an acute understanding of the limits of reason with crucial implications for our current postsecular and postliberal moment Sullivan also emphasizes the importance of Western constructions of Oriental religions for the history of the secular identifying a distinctively secular yet impassioned form of Orientalism that emerged in the 18th century Mahomet's racial profile in Voltaire's *Le Fanatisme ou Mahomet* 1741 for example functioned as a polemic device calibrated for emotional impact in line with Enlightenment efforts to generate an affective body of anti Catholic propaganda that simultaneously shored up people's sense of national belonging By exposing the Enlightenment as a nationalistic and affective movement that resorted to racist Orientalist and emotional tropes from the outset Sullivan ultimately undermines modern nationalist appeals to the Enlightenment as a mark of European distinction      **McDougal Littell World History: Medieval and Early Modern Times** McDougal Littell, 2005-03-16 Combines motivating stories with research based instruction that helps students improve their reading and social studies skills as they discover the past Every lesson of the textbook is keyed to California content standards and analysis skills      **Slavic and East European Journal**, 1998      **Data Book of Social Studies Materials and Resources**, 1989      *Reader's Guide to American History* Peter J. Parish, 1997 First Published in 1998 Routledge is an imprint of Taylor Francis an informal company      The Inquisitor in the Hat Shop Federico Barbierato, 2016-03-03 Early modern Venice was an exceptional city Located at the intersection of trade routes and cultural borders it teemed with visitors traders refugees and intellectuals It is perhaps unsurprising then that such a city should foster groups and individuals of unorthodox beliefs whose views and life styles would bring them into conflict with the secular and religious authorities Drawing on a vast store of primary sources particularly those of the Inquisition this book recreates the social fabric of Venice between 1640 and 1740 It brings back to life a wealth of minor figures who inhabited the city and fostered ideas of dissent unbelief and atheism in the teeth of the Counter Reformation The

book vividly paints a scene filled with craftsmen friars and priests booksellers apothecaries and barbers bustling about the city spaces of sociability between coffee houses and workshops apothecaries and barbers shops from the pulpit and drawing rooms or simply publicly speaking about their ideas To give depth to the cases identified the author overlays a number of contextual themes such as the survival of Protestant or crypto Protestant doctrines the political situation at any given time and the networks of dissenting groups that flourished within the city such as the free metaphysicists who gathered in the premises of the hatter Bortolo Zorzi In so doing this rich and thought provoking book provides a systematic overview of how Venetian ecclesiastical institutions dealt with the sheer diffusion of heterodox and atheistical ideas at different social levels It will be of interest not only to scholars of Venice but all those with an interest in the intellectual cultural and religious history of early modern Europe
