urban communities in many ways One of its manifestations is increased intercity competition which compels cities to increase their attractiveness in terms of capital entrepreneurship information expertise and consumption This competition takes place in an asymmetric field with cities trying to find the best possible ways of using their natural and created assets the latter including a naturally evolving reputation or consciously developed competitive identity or brand The Political Economy of City Branding discusses this phenomenon from the perspective of numerous post industrial cities in North America Europe East Asia and Australasia Special attention is given to local economic development policy and industrial profiling and global city rankings are used to provide empirical evidence for cities characteristics and positions in the global urban hierarchy On top of this social and urban challenges such as creative class struggle are also discussed The core message of the book is that cities should apply the tools of city branding in their industrial promotion and specialization but at the same time take into account the special nature of their urban communities and be open and inclusive in their brand policies in order to ensure optimal results This book will be of interest to scholars and practitioners working in the areas of local economic development urban planning public management and branding

Indigenous Celebrity Jennifer Adese,Robert Alexander Innes,2021-04-09 Indigenous Celebrity speaks to the possibilities challenges and consequences of popular forms of recognition critically recasting the lens through which we understand Indigenous people s entanglements with celebrity It presents a wide range of essays that explore the theoretical material social cultural and political impacts of celebrity on and

for Indigenous people It questions and critiques the whitestream concept of celebrity and the very juxtaposition of Indigenous and celebrity and casts a critical lens on celebrity culture s impact on Indigenous people Indigenous people who willingly engage with celebrity culture or are drawn up into it enter into a complex terrain of social relations informed by layered dimensions of colonialism racism sexism homophobia transphobia and classism Yet this reductive framing of celebrity does not account for the ways that Indigenous people s own worldviews inform Indigenous engagement with celebrity culture or rather popular social and cultural forms of recognition Indigenous Celebrity reorients conversations on Indigenous celebrity towards understanding how Indigenous people draw from nation specific processes of respect and recognition while at the same time navigating external assumptions and expectations This collection examines the relationship of Indigenous people to the concept of celebrity in past present and ongoing contexts identifying commonalities tensions and possibilities
