Education leadership Leentjie van Jaarsveld, Charl C. Wolhuter, C.P. van der Vyver, 2023-03-01 Leadership in education has been demonstrated to make a measurable and significant impact on the success of schools and the achievement levels of learners. This book displays the scope and range of the emerging field of the scholarship of education leadership by means of chapters zooming in on various areas of research in the field. The ensuing chapters focusing on various areas in the field of Education Leadership scholarship are ordered in the following categories: chapters dealing with teacher leadership, school leadership and mid-level leadership. The sections cover Collective Teacher efficacy in high performing high schools in South Africa, leadership and leadership challenges of school principals of special schools, entrepreneurial leadership, perceptions of school staff and school governing bodies regarding the use and maintenance of ageing school facilities and continuous professional development of teachers in Namibia. All the chapters employ a variety of research methods. The research reported on in each of the chapters does not only give clear indications as to how and where to improve practice but also opens vistas for new and future research suggesting to scholars in the field promising ways to take the field forward with research critical to the continual advance and relevance of the field. *Proceedings of the 1st International Conference on*

Psychological Assessment in South Africa Sumaya Laher, Kate Cockcroft, 2013-01-01 This book provides an overview of the research related to psychological assessment across South Africa. The thirty-six chapters provide a combination of psychometric theory and practical assessment applications in order to combine the currently disparate research that has been conducted locally in this field. Existing South African texts on psychological assessment are predominantly academic textbooks that explain psychometric theory and provide brief descriptions of a few testing instruments. *Psychological Assessment in South Africa* provides in-depth coverage of a range of areas within the broad field of psychological assessment including research conducted with various psychological instruments. The chapters critically interrogate the current Eurocentric and Western cultural hegemonic practices that dominate the field of psychological assessment. The book therefore has the potential to function both as an academic text for graduate students as well as a specialist resource for professionals including psychologists, psychometrists, remedial teachers and human resource practitioners
