Northern Cape Geography Paper 2 June 2014

Innocent Chirisa, Andrew Chigudu

Northern Cape Geography Paper 2 June 2014:

Cape Verde, Let's Go Derek Pardue, 2015-11-15 Musicians rapping in kriolu a hybrid of Portuguese and West African languages spoken in Cape Verde have recently emerged from Lisbon's periphery. They popularize the struggles with identity and belonging among young people in a Cape Verdean immigrant community that shares not only the kriolu language but its culture and history. Drawing on fieldwork and archival research in Portugal and Cape Verde, Derek Pardue introduces Lisbon's kriolu rap scene and its role in challenging metropolitan Portuguese identities. Pardue demonstrates that Cape Verde while relatively small within the Portuguese diaspora offers valuable lessons about the politics of experience and social agency within a postcolonial context that remains poorly understood. As he argues, knowing more about both Cape Verdeans and the Portuguese invites clearer assessments of the relationship between the experience and policies of migration. That in turn allows us to better gauge citizenship as a balance of individual achievement and cultural ascription. Deftly shifting from domestic to public spaces and from social media to ethnographic theory, Pardue describes an overlooked phenomenon transforming Portugal, one sure to have parallels in former colonial powers across twenty-first century Europe.

[Handbook Of Climate Change And Agroecosystems - Climate Change And Farming System Planning In Africa And South Asia: Agmip Stakeholder-driven Research \(In 2 Parts\)](#) Cynthia Rosenzweig, Carolyn Z. Mutter, Erik Mencos Contreras, 2021-04-13 This two-part handbook focuses on the work that the Agricultural Model Intercomparison and Improvement Project (AgMIP) accomplished using a new method, the AgMIP Regional Integrated Assessment Protocol, in Sub-Saharan Africa (SSA) and South Asia (SA) with funding from the UK Department for International Development. Through this research, AgMIP substantially improves the characterization and understanding of food security in SSA and SA and how it is affected by climate variability and change. The chapters in this handbook demonstrate how AgMIP has enhanced the capacity of developing country researchers and stakeholders to work together, exploring and prioritizing adaptation to current and future climate stresses. Part 1 describes regional integrated assessment methods and analyses, while Part 2 presents the outcomes of farming system studies. The entire volume shows how AgMIP has established as a public good protocols for Regional Integrated Assessments that improve the capability of developing countries to address climate change challenges. Related Link: [Resilience and Sustainability in Urban Africa](#) Innocent Chirisa, Andrew Chigudu, 2021-08-02 Resilience has become a very topical issue, transcending many spheres and sectors of sustainable urban development. This book presents a resilience framework for sustainable cities and towns in Africa. The rise in informal settlements is due to the urban planning practices in most African cities that rarely reflect the realities of urban life and environment for urban development. Aspects of places, people, and process are central to the concept of urban resilience and sustainable urban growth. It stems from the observation that urban vulnerability is on the increase in Zimbabwe and beyond. In history, disasters have adversely affected nations across the world, inflicting wide-ranging losses on one hand while on the other hand creating development opportunities for urban

communities Cooperation in disaster management is a strategy for minimising losses and uplifting the affected urban settlements The significance of urban planning and design in the growth and development of sustainable urban centres is well documented Urbanisation has brought with it challenges that most developing countries such as Zimbabwe are not equipped to handle This has been accompanied by problems such as overpopulation overcrowding shortages of resources and the growth of slum settlements There need is to seriously consider urban planning and design in order to come up with contemporary designs that are resilient to current urban challenges There are major gaps in urban resilience building for instance in Harare and the local authority needs to prioritise investment in resilient urban infrastructure *Urban agriculture in the Gauteng City-Region's green infrastructure network* Eliana Camargo Nino, Sam Lane, Kanako Okano, Irvanu Rahman, Bo Peng, Hannah Benn, Christina Culwick Fatti, Gillian Maree, Samkelisiwe Khanyile, Dr Carla

Washbourne, 2020-07-29 The aim of this occasional paper is to gain a better understanding of urban agriculture within the green infrastructure network in the City of Johannesburg and to identify the range of ecosystem services that could be delivered when maintaining and investing in these assets The analysis in this paper adopts a multi method approach to 1 identify the interlinkages between urban agriculture and social economic and environmental systems in the City of Johannesburg 2 validate these critical interlinkages with stakeholder input and ground level experience of urban agriculture and 3 visualise these interlinkages through a spatial analysis of food gardens in the City of Johannesburg
