**Myth in the Modern Novel** Liisa Steinby, 2023-03-20

Myth in the Modern Novel: Imagining the Absolute posits a twofold thesis. First, although Modernity is regarded as an era dominated by science and rational thought, it has in fact not relinquished the hold of myth, a more primitive form of thought which is difficult to reconcile with modern rationality. Second, some of the most important statements as to the reconcilability of myth and Modernity are found in the work of certain prominent novelists. This book offers a close examination of the work of eleven writers from the late eighteenth century to the beginning of the twenty-first, representing German, French, American, Czech, and Swedish literature. The analyses of individual novels reveal a variety of intriguing views of myth in Modernity and offer an insight into the modernizing transformations myth has undergone when applied in the modern novel. The study shows the presence of the subconscious, the mythic layer in modern western culture, and how this has been dealt with in novelistic literature.

*Mythology in the Modern Novel* John J. White,2016-04-19 J J White reexamines the use of myth in fiction in order to bring a new terminological precision into the field While concentrating on the German novel Mann Broch and Nossack he discusses the work of Alberto Moravia John Bowen Michel Butor and Macdonald Harris as well in order to show the modern predilection for myth in whatever national literature Throughout his discussion Mr White delineates carefully his specific subject the novel in which mythological motifs are used to prefigure events and character Joyce s *Ulysses* is of course the archetypal novel in this tradition Setting forth his terms and making clear his use of them Mr White then analyzes the wide appeal of the mythological novel for both twentieth century novelists and critics he distinguishes four ways in which modern novelists use myth and surveys the range of critical literature on the subject His concluding chapters are discussions of specific texts in which he differentiates between novels which have a unilinear parallel between myth and plot novels of juxtaposition in which chapters retelling myth parallel modern action and novels of fusion in which the action of the modern account synthesizes more than one mythic prefiguration of mythological motif Originally published in 1972 The Princeton Legacy Library uses the latest print on
