**Cross-Cultural Design** P.L. Patrick Rau, 2014-06-02 This volume constitutes the refereed proceedings of the 6th International Conference on Cross Cultural Design CCD 2014 held as part of the 16th International Conference on Human Computer Interaction HCI International 2014 held in Heraklion, Crete, Greece jointly with 13 other thematically similar conferences. The total of 1476 papers and 220 posters presented at the HCII 2014 conferences was carefully reviewed and selected from numerous submissions. The papers address the latest research and development efforts and highlight the human aspects of design and use of computing systems. They thoroughly cover the entire field of human computer interaction, addressing major advances in knowledge and effective use of computers in a variety of application areas. The 76 papers included in this volume deal with the following topics: cross cultural product and service design, cross cultural issues in interaction, social aspects and implications of cross cultural design, cross cultural issues in e-commerce, marketing and branding, cross cultural design for knowledge sharing and learning, cross cultural design for the smart city and cross cultural design for creativity

Seeking the Truth from Mobile Evidence John Bair, 2017-11-17 Seeking the Truth from Mobile Evidence: Basic Fundamentals, Intermediate and Advanced Overview of Current Mobile Forensic Investigations will assist those who have never collected mobile evidence and augment the work of professionals who are not currently performing advanced destructive techniques. This book is intended for any professional that is interested in pursuing work that involves mobile forensics and is designed around the outcomes of criminal investigations that involve mobile digital evidence. Author John Bair brings to life the techniques and concepts that can assist those in the private or corporate sector. Mobile devices have always been very dynamic in nature. They have also become an integral part of our lives and often times a digital representation of where we are, who we communicate with and what we document around us. Because they constantly change features, allow user-enabled security and/or encryption, those employed with extracting user data are often overwhelmed with the process. This book presents a complete guide to mobile device forensics written in an easy-to-understand format. Provides readers with basic, intermediate and advanced mobile forensic concepts and methodology. Thirty overall chapters which include such topics as preventing evidence contamination, triaging devices, troubleshooting, report writing, physical memory and encoding, date and time stamps, decoding Multi-Media Messages, decoding unsupported application data, advanced validation, water-damaged phones, Joint Test Action Group (JTAG) Thermal and Non-Thermal chip removal, BGA cleaning and imaging, In-System Programming, ISP and more. Popular JTAG boxes Z3X and RIFF, RIFF2 are expanded on in detail. Readers have access to the companion guide which includes additional image examples and other useful materials
