**Teacher's Guide** E. R. Wastnedge, 1967    The Sustainability and Climate Change Curriculum Outdoors: Key Stage 2

Deborah Lambert, Sue Waite, Michelle Roberts, Alun Morgan, 2024-03-14 Provide quality curriculum linked outdoor education in sustainability and climate change for pupils aged 7-11 with the authors of the bestselling National Curriculum Outdoors series. Designed to bring contemporary issues to life this book contains everything you need to embed sustainability and climate change into your science curriculum including key subject knowledge case studies and a complete set of progressions for Key Stage 2. The detailed lesson plans are based around outdoor activities and are all in line with the Science National Curriculum. The book covers the following essential curriculum concepts: how to teach species identification, how to encourage pupils to care for the natural world, full curriculum aligned lesson plans of outdoor activities crafted to engage children in their local and global environments, ways to progress pupils' learning through leadership both in a model science curriculum and through the reformation of their own school grounds. Situating this teaching outside the classroom ensures that the developing concepts and knowledge are grounded in the real world and outdoor learning also has proven benefits for children's mental health and wellbeing. The guidance and templates for development planning are underpinned by current research while vivid case studies bring these ideas to life.

**Teaching the 'Slow' Learner in the Primary School** M. F.

Cleugh, 2021-05-30 This book is a re-issue originally published in 1961. The language used is a reflection of its era and no offence is meant by the Publishers to any reader by this re-publication. Dr Cleugh was in charge of the course for teachers of so-called educationally sub-normal children at the University of London Institute of Education. The three volumes of this work which at the time took their place as complete and up-to-date guides to the subjects they cover were written by practising teachers who had passed through the Institute's course and they cover every part of the curriculum from the point of view of the slow learner. This volume focuses on the primary school.

*Beyond the Front Door* Josée Bergeron, 2026-02-24

Calling families to return to nature Bergeron offers simple solutions for how to increase outdoor time and as a result overall mental health. Parents are stressed, anxious and exhausted. Their children are spending an average of five to seven hours on screens and mere minutes outside each day. This book is for every family who is desperate to detach from screens and find some fun and engaging family time together. Whether you live in a big city in the suburbs or out in the country, Josée Bergeron will help you find creative and simple ways to bring the rhythm of nature into your daily routine just beyond your front door. Following the four seasons, each section contains unique themes and topics to bring families closer to the outdoors in order to improve their mental health and happiness. Bergeron encourages everyone to feel at home in nature and she offers practical ideas for helping you connect with nature through curiosity and relatability. Families can incorporate cultural traditions when interacting with nature and can honor the inherent attributes of the particular land they live on. Whether it's welcoming spring by weaving a wildflower crown, celebrating summer by building a bug hotel, appreciating

autumn by preserving leaves in beeswax or creating a magical ice wreath in winter families will learn how to embrace nature
