Domestic Engineering and the Journal of Mechanical Contracting , 1921 *Blue Revolution* Cynthia Barnett, 2012-09-04 Americans see water as abundant and cheap we turn on the faucet and out it gushes for less than a penny a gallon We use more water than any other culture in the world much to quench what s now our largest crop the lawn Yet most Americans cannot name the river or aquifer that flows to our taps irrigates our food and produces our electricity And most don t realize these freshwater sources are in deep trouble Blue Revolution exposes the truth about the water crisis driven not as much by lawn sprinklers as by a tradition that has encouraged everyone from homeowners to farmers to utilities to tap more and more But the book also offers much reason for hope Award winning journalist Cynthia Barnett argues that the best solution is also the simplest and least expensive a water ethic for America Just as the green movement helped build awareness about energy and sustainability so a blue movement will reconnect Americans to their water helping us value and conserve our most life giving resource Avoiding past mistakes living within our water means and turning to local water as we do local foods are all part of this new blue revolution Reporting from across the country and around the globe Barnett shows how people businesses and governments have come together to dramatically reduce water use and reverse the water crisis Entire metro areas such as San Antonio Texas have halved per capita water use Singapore s closed water loop

recycles every drop New technologies can slash agricultural irrigation in half businesses can save a lot of water and a lot of money with designs as simple as recycling air conditioning condensate The first book to call for a national water ethic Blue Revolution is also a powerful meditation on water and community in America **Specifying Engineer** ,1977 California Cultivator ,1920 Selected Methods of Clinical Chemistry ,1977 **People's Solar Sourcebook** ,1980
