

You can perform data backups manually via exporting your content to various formats (CHM, HTML5 Web Help, Microsoft Word, RTF, etc.). To do that, follow this process:

- Create a Private publication of your project. This will create a full copy of your content, including TOC, styles, images, scripts and other dependencies.
- Export the publication to the format you need. We recommend using the CHM format - this format uses HTML+CSS inside, so it will be easier to import the content later if you need this.
- Download the resulting file from ClickHelp Storage using the link on the last step of the wizard.
- Delete the publication if you do not need it.
- Keep this exported file in your own backup location as needed.

Poorly Written Technical Document:

Writing Skills for Administrative and Technical Documents, 1987 Technical Writing Style Dan Richard Jones, 1998

Advanced technical communication books are becoming more and more available. However, each book is solely devoted to a specialized topic such as technical editing, design, illustration, usability testing, and online documentation. Despite all of these introductory and advanced books, not one is available specifically devoted to the challenges of style in technical communication.

KEY TOPICS This 12-point approach offers the most current and comprehensive instruction available in achieving an effective style in technical documents. It shows that technical prose style varies from the highly formal to the colloquial, from the pretentious to the plain, and it demonstrates the many stylistic strategies writers should consider for every technical document they write. Anyone who has to write professional and technical documents, specifically engineers, software developers, consultants, medical writers, professional technical writers, etc., will find this book a valuable reference.

Part of the Allyn Bacon Series in Technical Communication **Technical Documentation** Andrew J. Marlow, 1995

The comprehensive coverage offered by *Technical Documentation* and its descriptions of special techniques make it the key day-to-day reference for anyone involved in the production of technical and user manuals. It also provides the ideal background material for students wishing to develop their skills or pursue a career in technical publications.

Successful Technical Writing Bill Wesley Brown, 1993

Successful Technical Writing is designed to help students and professionals write effective documents in business and industry settings. This text fully covers the proper procedures to write day-to-day documents such as memos, reports, and letters. More detailed documents such as operation manuals, owner's manuals, executive abstracts, and proposals are also covered. Emphasizes the development of high-quality professional documents that are clear and concise. A must for today's professionals in training.

Technical Writing, Presentational Skills, and Online Communication: Professional Tools and Insights Greenlaw, Raymond, 2012-03-31

This book is a collection of work to assist any professional who needs to deal with ethical issues, write up a technical project, give or develop a presentation, or write material for an online audience. Provided by publisher.

Humanities And Communication Skills (For The University Of Calicut) Pearson Education, 2010-09 Colorado School of Mines Magazine, 1913 The Colorado School of Mines Magazine, 1913 Quality of Technical Documentation Michaël Steehouder, 1994

User manuals, reference guides, project documentation, equipment specifications, and other technical documents are increasingly subjected to high-quality standards. However, it is not clear whether research efforts are keeping pace with this increasing importance of documentation quality. This volume includes studies from researchers as well as practitioners exemplifying three approaches towards document quality: Product orientation with an eye for usability in various manifestations such as tutorials, concept definitions, tools for users of documentation to find information, methods of eliciting user feedback, and cultural differences; Process orientation in which the quality of technical documentation is regarded as an outgrowth of a process involving sub-steps such as storyboarding, pre-testing, and use of automation tools in

writing and producing documents Professional orientation in which attention is focused on those who create technical documentation The volume will be of interest to a broad audience of writers managers and trainers with technical and non technical backgrounds such as quality managers communication managers technical communicators trainers in computer usage teachers researchers and students of technical communication The Journal of the Engineering Institute of Canada Engineering Institute of Canada,1929 *Abstracts of CISW Grants* Lillian Bridwell-Bowles,Mark Olson,1993 *Writing by Design* Michael Greene,Jonathan G. Ripley,1992 This extremely well illustrated guide gives technical professionals the skills needed to communicate with others It progresses step by step through the process of effectively designing a document or presentation from initial conception through final completion including a special focus on electronic tools for communication A must have reference for technical professionals interested in better ways for preparing documents and presentations

Understanding Computer Crime Norman R. Lyons,1984 Technical Writing for Industry Larry A. Riney,1989

Careers for Writers & Others Who Have a Way with Words Robert W. Bly,2003-04-16 The book explains how you can turn your way with words into cash You will find out how writers become advertising directors freelance writers publicists editors magazine writers proofreaders copyeditors newspaper reporters screenwriters or communication directors You ll find information on salaries working conditions and opportunities for professional advancement Written for newcomers and career changers From back cover **Engineering Journal** ,1929 **The Sachertorte Algorithm and Other Antidotes to Computer Anxiety** John Shore,1986 **Technical Writing** John M. Lannon,1985 Technical Writing Sharon J. Gerson,Steven M. Gerson,2003 For courses in Technical Writing Business Communication and Professional Writing This text guides students through the entire writing process prewriting writing and rewriting developing an easy to use step by step technique for writing the types of documents they will encounter on the job The authors student friendly style engages students in the writing process and encourages hands on application as well as discussions about ethics audience identification electronic communication and the role of technical writing in the workplace **Datamation** ,1980
