

Liberals have hijacked science for long enough. It's time to set the record straight.

A part of the bestselling Politically Incorrect Guide series.

# The Politically Incorrect Guide to SCIENCE

## *Science myths busted:*

- Capitalist countries are destroying the environment and causing global warming
- Darwinian evolution is supported by overwhelming evidence and is the natural ally of political conservatives
- Most Christians used to think the Earth was flat
- Religion is the enemy of science
- Human cloning and embryonic stem cell research hold the key to our future health and happiness

**Politically Incorrect Guide to Women, Sex And Feminism** Carrie L. Lukas,2006-05-01 The latest in the New York Times bestselling series is the perfect antidote to the lies told in boardrooms locker rooms and universities that are brainwashing young women every day    **Politically Incorrect Guide to Catholicism** John Zmirak,2016-09-26 A book to challenge the status quo spark a debate and get people talking about the issues and questions we face as a country

**Hollowed Out** Jeremy S. Adams,2021-08-03 Do teachers have a front row seat to America's decline Jeremy S Adams a teacher at both the high school and college levels thinks so Adams has spent decades trying to instill wisdom ambition and a love of learning in his students And yet as he notes when teachers get together they often share an arresting conclusion Something has gone terribly wrong Something essential is missing in our young people Their curiosity seems stunted their reason undeveloped their values uninformed their knowledge lacking and most worrying of all their humanity diminished Digital hermits of a sort unfamiliar to an older generation they have little interest in marriage and family They largely dismiss and are shockingly ignorant of religion They sneer at patriotism sympathize with riots and vandalism and regard American society and civilization as so radically flawed that it must be dismantled Often friendless and depressed they eat alone study alone and even socialize alone Educators like Adams see a generation slipping away The problems that have hollowed out our young people have been festering for years A year of COVID 19 lockdowns and social distancing have magnified them The result could be a generation and our nation's future lost in a miasma of alienation and stupefaction In his stunning new book Hollowed Out Jeremy S Adams reveals why students have rejected the wisdom culture and institutions of Western civilization and what we can do to win them back Poignant frightening and yet inspiring this is a book for every parent teacher and patriot concerned for our young people and our country    [The Politically Incorrect Guide to the Civil War](#) H. **Teacup** James M. Wright,2022-04-08 The world is ending because of climate change Every day we are bombarded with apocalyptic warnings telling us that if we do not change our ways and dismantle our economies we will destroy the planet But what if it is all a cynical hoax perpetrated by power hungry activists and politicians for their own purposes In this book James Wright asks that question joining a multitude of skeptics who challenge the increasingly hysterical claims of climate fanatics and the science that supposedly underpins them    **Christianity and Rabbinic Judaism** Jonas E.

Alexis,2011-12-29 The simple step of a courageous individual is not to take part in the lie One word of truth outweighs the

world Alexander Solzhenitsyn In this penetrating and provocative work Jonas E Alexis challenges common assumptions about the relationship between Christianity and Rabbinic Judaism and provides compelling evidence from history and theology that demonstrates the extent to which modern Judaism has been defined by the Pharisaic and Rabbinic schools of thought As Alexis meticulously documents there has been a constant struggle between Christianity and Rabbinic Judaism since the time of Christ a struggle that will define the destiny of the West Islam according to Christianity is a historically and theologically false religion since it denies both Jesus s deity and His work of salvation at the Cross But Rabbinic Judaism Alexis argues is equally false and in many respects more dangerous to Christianity and the West than Islam since at its root Rabbinic Judaism wages war against the Logos the system of order in the world embodied by Christ In this painstakingly scholarly yet readable work Alexis maintains that Rabbinic Judaism defined by the Pharisaic teachings now codified in the Talmud that Jesus sought to correct is a categorical and metaphysical rejection of Christianity a rejection that has had and will continue to have severe implications for Western culture intellectual history and theological exegesis **The Death of Man as Man** Ronnie W.

Rogers,2016-07-05 The content of this book was first presented in its present form at The Oxford Round Table Religion and Science Shaping the Modern World in 2010 at Harris Manchester College Oxford University Oxford England Science or its handmaiden separation of church and state is absolutely incapable of establishing or sustaining the liberties spelled out in the Declaration of Independence and protected by the Constitution The United States was founded upon the astonishing declaration We hold these truths to be self evident that all men are created equal that they are endowed by their Creator with certain unalienable rights that among these are life liberty and the pursuit of happiness That to secure these rights governments are instituted among men deriving their just powers from the consent of the governed Then the Constitution was drafted in order to secure the Blessings of Liberty to ourselves and our Posterity It is these rights and liberties that are being systematically and surreptitiously dismantled by both the unwarranted expansion of science beyond its legitimate domain and the restricting of religious ideas from public education and policy debate True science has blessed us but when employed beyond its legitimate limits of authority it becomes a dehumanizing tyrant Science has its place in public life but to limit religious knowledge to merely opinion and private faith while concurrently limiting all publicly imposable knowledge to what can be demonstrated scientifically requires more than science can provide These liberties are based upon belief in the existence of God who created man with intrinsic worth and liberties Without a public belief in the existence of God all talk of unalienable rights is quixotic and assures the continuation of the heretofore unabated evanescing of those rights **Journal**

**Institutions in Crisis** David Howden,2011 This critical and thought provoking book explores the causes and

consequences of Europe's failed political and economic institutions. Europe's recession has created new challenges as market turmoil has shaken the foundations of the twin pillars of the new drive for European integration: political and monetary unions. This book critically assesses the patchwork solutions continually offered to hold the troubled unions together. Failed political policies from the prodigious Common Agricultural Policy to ever more common fiscal stimulus packages are shown to have bred less than stellar results in the past and to have devastating implications for future European growth. The contributors outline the manner through which European monetary union has subsidized and continues to exacerbate the burgeoning debt crisis. Most strikingly the interplay between Europe's political and economic realms is exposed as the boondoggle it is with increasingly bureaucratic institutions plaguing the continent and endangering future potential. Combining political and economic analysis this comprehensive book will prove essential for researchers and students in international business and macroeconomics. Educated laymen wanting a keener perspective on Europe's recession will also find this book to be invaluable.

**Politically Incorrect Guide to American History** Thomas E. Woods, 2004-01-04 The problem in America isn't so much what people don't know the problem is what people think they know that just ain't so. Thomas E. Woods Most Americans trust that their history professors and high school teachers will give students honest and accurate information. The Politically Incorrect Guide to American History makes it quite clear that liberal professors have misinformed our children for generations. Professor Thomas E. Woods Jr. takes on the most controversial moments of American history and exposes how history books are merely a series of clichés drafted by academics who are heavily biased against God, democracy, patriotism, capitalism and most American family values. Woods reveals the truth behind many of today's prominent myths. MYTH The First Amendment prohibits school prayer. MYTH The New Deal created great prosperity. MYTH What the Supreme Court says goes. From the real American revolutionaries to the reality of labor unions. The Politically Incorrect Guide to American History is all you need for the truth about America: objective and unvarnished.

*The Myth of Political Correctness* John K. Wilson, 1995 John Wilson shows in copious and devastating detail that as obnoxious as Political Correctness of the Left has sometimes been, the Political Correctness of the Right is far more pervasive, virulent and well funded, as well as virtually unpublicized. Gerald Graff, author of *Beyond the Culture Wars*.

**The New York Times Magazine**, 2005 **American Book Publishing Record**, 2007 **The Barnes Review**, 2008 **A Reader for the Politically Incorrect** George Zilbergeld, 2003-10-30 Calls attention to the dangers of the politically correct movement.
