Pollen Jeff Noon:

Pollen Jeff Noon, 1996 The bestselling author of Vurt spins another audaciously inventive tales of reality gone soft and dreams become real As an enormous cloud of pollen descends upon a city people begin to literally sneeze themselves to death When a cop one of the few who is immune sets out to find the source of the plague what she discovers will forever alter the ancient relationship between people and the myths they create to make sense of the world *Pollen* Jeff

Noon, 2025-12-02 The 30th anniversary reissue of the acclaimed sequel to Jeff Noon's Vurt A second key piece of the SF canon from an author who has found new readers with Gogmagog and Ludluda A nightmare trip into a Manchester overwhelmed by an alien hay fever Flowers in the rain indeed Big jump in the grain count I can hear them jumping This old hippy is sneezing already Ya Ya The flowers are spurting pollen all over the Manchester map Gumbo never seen such a giant golden step before In a strange re mixed future Manchester a cloud of Pollen descends a new strain each tiny grain a murderer Within days the streets of the city are overgrown with vicious blooms as the fiercest hay fever epidemic of all time takes hold People are sneezing themselves to death and the pollen count is racing towards 2 000 But a small percentage of the population are immune to the fever Two of them shadow cop Sibyl Jones and her wayward daughter Boda are on separate path into the dark place from where the pollen originates What they find there will change their lives together Only they can save the city Bless you *Jeff Noon's "Vurt"* Andrew C. Wenaus, 2022-08-01 This book offers an examination of Jeff Noon's iconoclastic debut novel Vurt 1993 In this first book length study of the novel which includes an extended interview with Noon Wenaus considers how Vurt complicates the process of literary canonization its constructivist relationship to genre its violent and oneiric setting of Manchester its use of the Orphic myth as an archetype for the practice of literary collage and musical remix and how the structural paradoxes of chaos and fractal geometry inform the novel's content form and theme Finally Wenaus makes the case for Vurt's ongoing relevance in the 21st century an era increasingly characterized by neuro totalitarianism psychopolitics and digital surveillance With Vurt Noon begins his project of rupturing feedback loops of control by breaking narrative habits and embracing the contingent and unpredictable An inventive energetic and heartbreaking novel Vurt is also an optimistic and heartfelt call for artists to actively create open futures

Dancefloor-Driven Literature Simon A. Morrison, 2020-05-14 Almost as soon as club culture took hold during the UK's Second Summer of Love in 1988 its sociopolitical impact became clear with journalists filmmakers and authors all keen to use this cultural context as source material for their texts This book uses that electronic music subculture as a route into an analysis of these principally literary representations of a music culture why such secondary artefacts appear and what function they serve The book conceives of a new literary genre to accommodate these stories born of the dancefloor dancefloor driven literature Using interviews with Irvine Welsh author of Trainspotting 1994 alongside other dancefloor driven authors Nicholas Blincoe and Jeff Noon as case studies the book analyzes three separate ways writers draw on

electronic dance music in their fictions interrogating that very particular intermedial intersection between the sonic and the linguistic It explores how such authors write about something so subterranean as the nightclub scene and analyses what specific literary techniques they deploy to write lucidly and fluidly about the metronomic beat of electronic music and the chemical accelerant that further alters that relationship **The Best Novels of the Nineties** Linda Parent

Leshner,2015-11-17 This reader's guide provides uniquely organized and up to date information on the most important and enjoyable contemporary English language novels Offering critically substantiated reading recommendations careful cross referencing and extensive indexing this book is appropriate for both the weekend reader looking for the best new mystery and the full time graduate student hoping to survey the latest in magical realism More than 1 000 titles are included each entry citing major reviews and giving a brief description for each book **Botanical Architecture** Paul

Dobraszczyk,2024-11-12 An original call to reorient architecture around our relationship to plants When we look at trees we see a form of natural architecture and yet we have seemingly always exploited trees to make new buildings of our own Whereas a tree creates its own structure humans generally destroy other things to build with increasingly disastrous consequences In Botanical Architecture Paul Dobraszczyk looks closely at how elements of plants seeds roots trunks branches leaves flowers and canopies compare with and constitute human made buildings Given the omnipresence of plant life in and around our structures Dobraszczyk argues that we ought to build as much for plants as for ourselves understanding that our lives are always totally dependent on theirs Botanical Architecture offers a provocative and original take on the relationship between ecology and architecture Allergy Mark Jackson,2007-08-15 Mark Jackson investigates

how allergy has become the archetypal disease of civilization transforming from a fringe malady of the wealthy into one of the greatest medical disorders of the twentieth century *The Mammoth Encyclopedia of Science Fiction* George Mann,2012-03-01 This encyclopedia is the most up to date concise clear and affordable guide to all aspects of science fiction from its background to generic themes and devices from authors established and new to films Science fiction has evolved into one of the most popular cutting edge and exciting fiction genres with a proliferation of modern and classic authors themes and ideas movies TV series and awards Arranged in an A Z format and featuring a comprehensive index and cross referencing system The Mammoth Encyclopedia of Science Fiction is also the most accessible and easy to use encyclopedia of its kind currently available **Through the Screen Wildly** Joanne Benford,2008 As with the relationship between any two

cultural areas the flow of ideas between science and science fiction is two way An exchange of knowledge and perspectives exists fed by the concerns of society at large This book explores the dialogues that take place between science fiction and the postmodern world and what effects these have had on identity I take the science fiction novel to be the paradigmatic form of postmodernism Instead of presenting a truth with possible explanations between which it may be impossible to choose the science fiction novel presents possible worlds The stuff of fiction the human condition is framed by unusual worlds which in

turn create surprising dilemmas with which the characters must cope It is this question of possible worlds exploring how they relate to temporality in postmodern fiction linking to ideas of hyperspace and finally to my discussion of the postmodern city and the notion of the wildzone Signs of Culture Wojciech Kalaga,Tadeusz Rachwał,2000 Baudrillard s culture of simulation destroys our sense of paramount reality It has created as Chris Rojek puts it a huge refugee camp in which viewers dissociated from place and community are caught up in global indexing and dragging processes which no one controls What is thus also perversely inscribed within the cultural landscape is a nostalgia for authenticity for the dissimulated spaces and places which though no longer there stimulate their semiotic reconstructions and reproductions And yet the possibility of lying is the prioprium of semiosis as Umberto Eco has once remarked Truth and falsity are inherent in the sign and in representation generally subverting the tertium non datur principle This book is an attempt to unmask representation to see through the signs of the real and through the real itself at the realm of simulation Those signs are not only signs of what they signify but also signs of culture of the cultural real which the articles included in the volume try to penetrate from various theoretical and philosophical perspectives *Pollen* Jeff Noon,2006 Lundi 1e mai Plus de 500 grains par m tre cube ce matin Alerte sanitaire de sa majest Le taux de pollen s l ve Sentir les fleurs est mortel La ville pleurait 1607 et la hausse Des portes sont en train de s ouvrir entre les esp ces 1999 Mardi 9 mai Bombe ternuement
