

POOL ANATOMY

Understanding Your Pool's Systems and Equipment

One of the most valuable things you can do to care for your pool is to understand how each component of your pool works. Not only does this help with general maintenance, but you'll be able to better troubleshoot issues in the future.

And if you ever do need to hire a professional, this will help you narrow down the issue before wasting time and money. In this section, you'll learn about:

1. **Pool Anatomy 101:** Learn about the three main sections of a pool's plumbing system and how they work.
2. **Inground Pool Anatomy:** Understand the difference between concrete, fiberglass, and vinyl liner pools and the typical plumbing setup for inground pools.
3. **Above-Ground Pool Anatomy:** Understand the difference between above-ground pool materials and how water flows through a standard above-ground pool system.
4. **Pool Size, Shape, and Volume:** Calculate how many gallons your pool holds.
5. **Pump and Filter Systems:** Understand common pool plumbing and equipment, and map out how water flows through your pool's system.
6. **Filling Out Your Pool Profile:** Create a simple profile of your pool, equipment, and water flow to reference for future maintenance or troubleshooting.

Pool Anatomy 101: The 3 Sections of Your Pool's Plumbing

There are three main sections of your pool's plumbing system: the suction side, the filtration system, and the pressure side. Each section is responsible for pulling water out of your pool, filtering, and treating your water, and then sending sanitized water back into your pool.

Your pool may have additional pieces of equipment or a different number of skimmers, drains, or returns. But the flow of water and anatomy of the plumbing is essentially the same.

1. Suction Side (Water Flows Out of Pool)

This is the side that takes in water from the pool and introduces it to the filtration system. Your pool pump sucks in the water from the pool through the skimmer, which is the rectangular port in the pool wall. If you have an inground pool, it also pulls water in through the main drain(s).
