Populism Era – Gold vs. Silver Standard Debate

The debate over U.S. currency standards during the Populism era centered on whether to adopt the gold or silver standard. Industrialists favored the **gold standard** because it provided currency stability, which was essential for business confidence and international trade. Conversely, farmers and many agrarian interests supported the **silver standard** as a means to promote **inflation**, which would make it easier to pay off debts and increase the money supply. This debate reflected broader economic tensions between urban industrialists and rural farmers, with the latter seeking relief from deflationary pressures that hurt their income.

Populist Party Platform

The **Populist Party**, emerging in the late 19th century, championed reforms aimed at empowering farmers and workers against powerful corporate interests. Their platform included:

- **Graduated income tax:** A tax system where higher incomes are taxed at higher rates, aiming for economic fairness.
- **Direct election of Senators:** To reduce corruption associated with legislative appointment.
- **8-hour workday:** Advocating for better labor conditions.
- **Government ownership of railroads:** To curb monopolistic practices and reduce transportation costs.
