

How to Buy Crypto

Crypto For Beginners Primer

Zennon Kapron

Crypto For Beginners Primer:

Cryptocurrency for Beginners Stephen Satoshi, 2018-07-31 If you're thinking of buying cryptocurrency in the future consider this. If only I'd bought back then. Sound familiar? It probably does. Because when it comes to cryptocurrency there are so many, if only the one that got away. Stories 7 years ago you could've bought 1 Bitcoin for just 10 cents. That same Bitcoin is worth over 8000 today. 100 dollars invested in 2010 would be worth over 8 million dollars today. But now you have an opportunity that's far from typical. It's an opportunity to cryptocurrencies while the prices are down 60% from the start of the year. You're probably thinking if prices are down so much why on Earth would I buy? The answer is this dip is only temporary. Because it gives institutions like investment banks a chance to load up their own holdings for less. Banks like JP Morgan who just last year were adamantly against cryptocurrency but now are offering it as an investment option. And the Chicago Board of Exchange who just filed an application to provide the world's first Bitcoin ETF. Which is why earlier this month Bitcoin rose 28% in just 4 days. Indicating that the next big boom might just be upon us. In this giant 15 book bundle you will discover: A complete analysis of over 70 different cryptocurrencies. No other book on Amazon comes close. 7 giant cryptocurrency mistakes that are guaranteed to lose you money and how you can avoid making them. A step by step guide on how to safely store your newly bought cryptocurrency. A secret but completely legal way to buy coins on Coinbase without paying transaction fees. Potentially saving you hundreds of dollars per year. How to use cryptocurrency to hedge against your traditional portfolio. A coin with game changing technology which will open up partnerships with Fortune 500 companies. A fundamental analysis of 7 high growth potential cryptocurrencies that all utilize Ethereum technology. How a tiny plastic tube is making investors in this marijuana company very rich. The only gaming coin with actual ties to the casino industry. This is vital for future growth. How to legally invest in cryptocurrencies tax free. How even a technophobic 90 year old can buy Bitcoin in less than 15 minutes. No more difficult than buying anything else online and much much more. Plus not one but four free bonuses inside. Including guides on crisis investing and marijuana stocks with profit producing information like The McDonald's secret which directly relates to the marijuana industry and your chance of profiting. How regular folks can legally benefit from holding assets offshore. The absolute worst type of stock to have in your portfolio and one that always plummets during a downturn. The one sub section of the marijuana industry you must be in. The 3 Rs stocks which perform best in a bad market. What your broker isn't telling you about airline stocks. But aren't cryptocurrencies risky? Like any investment they carry certain risks. That's why this book helps you stay informed and armed with the best knowledge possible. All broken down into easy digestible language. There is one small thing to bear in mind though. Unless you want another 'if only' story the time is now. Because things move fast in the crypto space and today's golden opportunity becomes tomorrow's missed opportunity. So if you're ready to become a part of the world's fastest growing and most exciting market scroll up and click add to cart to receive your book instantly. P.S. Many cryptocurrency analysts now predict Bitcoin could reach up to 65,000 by the end of the

year and other cryptocurrencies inside this mega bundle could go even higher
