## **On Becoming Babywise:**

**On Becoming Baby Wise** Gary Ezzo, Robert Bucknam, 2006 The infant management concepts presented in this book have found favor with over two million parents and twice as many contented babies On Becoming Babywise brings hope to the tired and bewildered parents looking for an alternative to sleepless nights and fussy babies The Babywise Parent Directed Feeding concept has enough structure to bring security and order to your baby's world yet enough flexibility to give mom freedom to respond to any need at any time It teaches parents how to lovingly guide their baby's day rather than be guided or enslaved to the infant's unknown needs The information contained within On Becoming Babywise is loaded with success Comprehensive breast feeding follow up surveys spanning three countries of mothers using the PDF method verify that as a result of the PDF concepts 88% breast feed compared to the national average of only 54% from the National Center for Health Statistics Of these breast feeding mothers 80% of them breast feed exclusively without a formula complement And while 70% of our mothers are still breast feeding after six months the national average encourage to follow demand feeding without any guidelines is only 20% The mean average time of breast feeding for PDF moms is 33 1 2 weeks well above the national average Over 50% of PDF mothers extend their breast feeding toward and well into the first year Added to these statistics is another critical factor The average breast fed PDF baby sleeps continuously through night seven to eight hours between weeks seven and nine Healthy sleep in infants is analogous to healthy growth and development Find out for yourself why a world of parents and pediatricians utilize the concepts found in On Becoming Babywise *On Becoming Babywise*
