On Writing The College Admissions Essay By Harry Bauld:

On Writing the College Application Essay, 25th Anniversary Edition Harry Bauld, 2012-08-21 One of the most stressful aspects of the college application process is the essay. Most students worry about what an admissions officer looks for in a writing sample. But that's the wrong way to approach this vital component, says former Ivy League college admissions officer Harry Bauld. At Brown and Columbia he saw what prospective students often did wrong and now tells you how to do it right. In this fully revised and updated edition of the classic guide to writing the best essay of your life, Bauld has written an insider's guide to writing an essay that will stand out from the pack. He advises you on how to find your authentic voice, gives you tools and ideas that will spark your imagination and shows you how to approach themes with originality and panache to make even the most tired topics fresh. He'll tell you straight out what admissions officers aren't looking for: another platitudinous variation on one of the following themes if you see your initial idea reflected in this list think again: The trip I had to adjust to a whole new way of life; My favorite things: puppy dogs, freedom and chocolate chip cookies; The pageant contestant I think World Peace is the most important issue facing us today; The jock; Through wrestling I have learned to set goals and to work with people; The autobiography: Hello my name is Tales of my success; But finally when I crossed the finish line; Pet death; As I watched Buttons's life ebb away I came to value Getting into the college of your dreams is tough; The competition is fierce. For more than twenty-five years, *On Writing the College Application Essay* has helped thousands of students improve their chances. Now let it work for you.

Includes sample essays. *Helping Your Students Write Personal Statements* Stephen Lassonde, 2024-04-08 This practical book is a timely and comprehensive guide designed for college advisors and instructors who are supporting and coaching students into successful internships, fellowships, graduate programs and professional schools. This book emphasizes the most important part of any application: the personal statement. How to prepare to write it, how to draft it, how to revise it, and why to invest time in the process of developing it. *Helping Your Students Write Personal Statements* analyzes the components of the effective personal statement and provides examples from many successful essays by actual college students as well as exercises for students. It also gives advisors the tools to help engage students who might not ordinarily consider themselves credible candidates for nationally competitive fellowships. This book uniquely takes a developmental approach, offering college advisors and teachers a concrete step-by-step plan to help any student craft the best, most persuasive personal statement they can write, helping transform their students into compelling competitive candidates. **The Successors** Andrea Flores, 2021-09-07 A powerful and challenging look at what success and belonging mean in America through the eyes of Latino high schoolers. This book challenges dominant representations of the so-called American Dream those patriotic

narratives that focus on personal achievement as the way to become an American. This narrative misaligns with the lived experience of many first and second generation Latino immigrant youth who thrive because of the nurture of their loved ones. A story of social reproduction and change, *The Succeeders* illustrates how ideological struggles over who belongs in this country who is valuable and who is an American are worked out by young people through their ordinary acts of striving in school and caring for friends and family. In this eye opening book, Andrea Flores examines how ideological struggles over who belongs in this country who is valued and who is considered to be an American are worked out by young people through ordinary acts of striving in school and caring for friends and family. Through examining the experiences of everyday Latino high school students, some undocumented, some citizens and some from families with mixed immigration status, Flores traces how these youth in the college access program, *Succeeders*, leverage educational success toward national belonging for themselves and their families, friends and communities. These young people come to redefine what it means to belong in the United States by both conforming to and contesting the myth of the American Dream rooted in individual betterment. Their efforts demonstrate that meaningful national belonging can be based in our actions of caring for others. Ultimately, *The Succeeders* emphasizes the vital role that immigrants play in strengthening the social fabric of society, helping communities everywhere to thrive.
