Villon, 1889      Rethinking Historical Time Marek Tamm, Laurent Olivier, 2019-08-22 Is time out of joint For the past two  
centuries the dominant Western time regime has been future oriented and based on the linear progressive and homogeneous  
concept of time Over the last few decades there has been a shift towards a new present oriented regime or presentism made  
up of multiple and percolating temporalities Rethinking Historical Time engages with this change of paradigm providing a  
timely overview of cutting edge interdisciplinary approaches to this new temporal condition Marek Tamm and Laurent Olivier  
have brought together an international team of scholars working in history anthropology archaeology geography philosophy  
literature and visual studies to rethink the epistemological consequences of presentism for the study of past and to discuss  
critically the traditional assumptions that underpin research on historical time Beginning with an analysis of presentism the  
contributors move on to explore in historical and critical terms the idea of multiple temporalities before presenting a series of  
case studies on the variability of different forms of time in contemporary material culture      Grande encyclopédie illustrée
