The SAGE Handbook of Early Childhood Policy Linda Miller, Claire Cameron, Carmen Dalli, Nancy Barbour, 2017-10-02

Recent authoritative evidence suggests that an estimated 200 million children under five fail to achieve their developmental potential due to factors including poor health and nutrition and the lack of stable high quality care. A significant number of the world's children today lack the basic rights to health development and protection. In light of such statistics early childhood services for young children have expanded around the world. The *SAGE Handbook of Early Childhood Policy* draws critical attention to policy in Early Childhood Education and Care (ECEC) its relationship to service provision and its impact on the lives of children and families. The perspectives of leading academics and researchers from Europe, North America, South America, Africa, Australasia and Asia have been arranged around five key themes: Part 1 The Relationship Between Research Policy And Practice; Country Case Studies; Part 2 Equitable Early Childhood Services Intervention to Improve Children's Life Chances; Part 3 Extending Practice: The Role of Early Childhood Services In Family Support; Part 4 Participation, Rights and Diversity; Part 5 Future Directions for Early Childhood Policy. This handbook is essential reading for practitioners, stakeholders and others committed to working within early years services to achieve an awareness of policy and its implications for services and practice.

Picture this, 2003 **Measuring What Matters for Child Well-being and Policies**

OECD, 2021-07-01 To design, implement and monitor effective child well-being policies, policy makers need data that better capture children's lives, measure what is important to them and detect emerging problems and vulnerabilities early on. Despite improvements in recent decades, there are still important gaps in both national and cross-national child data.

Countries can achieve progress if the right actions are taken.

Making a Difference, 2007-01-01 *Making a Difference: Challenges for Teachers Teaching and Teacher Education* has been written to provide an international forum of scholarly discussion around the theme of how teachers and teacher educators can make a difference. It examines some of the challenges that need to be addressed across the teaching profession. The chapters have been developed by the contributors from a set of keynote presentations and refereed papers given at the 2005 International Study Association for Teachers and Teaching (ISATT) Conference in Sydney, Australia. The conference was attended by 190 delegates from a diverse range of countries: Australia, Belgium, Bosnia, Canada, China, Czech Republic, Denmark, Finland, Germany, Hong Kong, Iceland, India, Jamaica, Malaysia, Marshall Islands, Netherlands, New Zealand, Pakistan, Philippines, Poland, Portugal, Slovenia, South Africa, Sweden, Taiwan, Turkey, United Kingdom, United States and the West Indies. A distinctive feature of the conference was the range of education systems, policies, teacher education programs, school districts, classrooms, teachers and students whose views were argued for and critiqued. This book has been prepared so that it reflects that breadth of contexts and issues. The book is presented in four sections, each emphasising a unique dimension of what is involved in making a difference. The authors offer a range of viewpoints from their different cultural, historical and professional contexts. While each section has a
