Baxstrom,Todd Meyers,2015-11-02 Benjamin Christensen s *H xan* The Witch 1922 stands as a singular film within the history of cinema Deftly weaving contemporary scientific analysis and powerfully staged historical scenes of satanic initiation confession under torture possession and persecution *H xan* creatively blends spectacle and argument to provoke a humanist re evaluation of witchcraft in European history as well as the contemporary treatment of female hysterics and the mentally ill In Realizing the Witch Baxstrom and Meyers show how *H xan* opens a window onto wider debates in the 1920s regarding the relationship of film to scientific evidence the evolving study of religion from historical and anthropological perspectives and the complex relations between popular culture artistic expression and concepts in medicine and psychology *H xan* is a film that travels along the winding path of art and science rather than between the narrow division of documentary and fiction Baxstrom and Meyers reveal how Christensen s attempt to tame the irrationality of the witch risked validating the very nonsense that such an effort sought to master and dispel *H xan* is a notorious genre bending excessive cinematic account of the witch in early modern Europe Realizing the Witch not only illustrates the underrated importance of the film within the canons of classic cinema it lays bare the relation of the invisible to that which we cannot prove but nevertheless know to be there
