Cross Border Security in the Southern African Region Inocent Moyo,2024-07-29 This book provides a sophisticated analysis of cross border challenges and problems in the southern African region It advances explanations that transcend the state centric narrative that has nationalised cross border security It provides insights from non state actors such as informal cross border traders ICBTs informal cross border transporters undocumented migrants and cross border communities It argues that security needs to be understood beyond a state centric paradigm by focusing on the political economic environmental and societal threats at

macro meso and micro levels The book suggests that at the core of cross border security challenges in the Southern African region is a post colonial governmentality This drives the nationalisation of cross border security as though it is the only security leading to nation states in turn depoliticising and invisibilising the security and livelihoods of ordinary people even when nation states claim to be protecting the same The book will be a useful resource for students scholars and researchers of African Studies Border Studies Human Geography Migration Studies Development Studies International Studies
