SADC Gender Protocol 2017 Barometer Morna, Colleen Lowe, Makamure, Lucia, 2017-10-04 The SADC Protocol on Gender and Development is the only sub regional instrument in the world that brings together global and continental commitments to gender equality in one instrument used to enhance accountability The Southern African Gender Protocol Alliance is a network of country and regional NGOs that campaigned for the Protocol its updating implementation and tracking Originally aligned to the Millennium Development Goals that expired in 2015 SADC Gender Ministers updated the Protocol and aligned it to the Sustainable development Goals SDGs Beijing Plus Twenty and the Africa Agenda 2063 in 2016 In July 2017 the Ministers adopted a Monitoring Evaluation and Reporting Framework MERF that will be the basis of future reporting Now in its ninth edition the 2017 Barometer is the first assessment of the Post 2015 SADC Gender Protocol Moving with the times the Alliance has expanded the two key main yardsticks in the Barometer the SADC Gender and Development Index SGDI and the Citizen Score Card CSC The Barometer incorporates many MERF and SDG indicators as well as its own unique measures of voice choice and control The Barometer also introduces the Gender Responsive Assessment of Constitutions and Laws conducted by Alliance experts and networks around the region A wealth of data insights and analysis awaits all readers of the Barometer that will also be made available online and in multi media formats The SADC we want is one in which citizens engage step it up for gender equality and make sure we achieve Planet 50 50 by 2030 **Southern Africa Report** ,1999 Simulation & Training for 2015 and Beyond ,2014 *Team and Collective Training Needs Analysis* John Huddleston, Jonathan Pike, 2017-07-12 Military capability is delivered operationally at a team and collective level be it a unit as small as a squad or section or as large as a maritime task group Modern military forces are required to deal with a potentially wide range of missions frequently involving multiple alliance partners within a geopolitical environment which can seem to change rapidly Individual performance while being important is not the primary determinant of mission success force integration interoperability adaptability and teamwork are key factors Team and collective training which fully addresses these factors is fundamental to the development and delivery of military capability As a consequence the requirement to determine training requirements and specify effective systems for the delivery of team and collective training is critical to operational success Training Needs Analysis also known as Front End Analysis is a well established methodology for analysing training requirements and specifying training solutions used extensively by the UK and its NATO partners However the analytical techniques employed are optimised for individual training with little guidance being offered on its application in the team and collective context Team and Collective Training Needs Analysis TCTNA has been developed to close this methodological gap It addresses the issues of the relationship of individual and team tasks teamwork command and control task and training environments scenario definition instructional strategy team training approaches instructional functions and wide ranging organisational and procurement considerations Part One of the book develops an integrated set

of models which underpin the analytical approach presented in Part Two Worked examples and case studies illustrate the application of the approach Between 2005 and 2015 the authors worked on numerous training related research projects at Cranfield University and Coventry University for the Human Factors Integration Defence Technology Centre and the Defence Human Capability Science and Technology Centre on behalf of the Defence Science and Technology Laboratory UK Ministry of Defence
