## **Santa Cruz Carrier Duel In The South Pacific:**

Santa Cruz 1942 Mark Stille,2012-09-20 A highly illustrated account of the fourth major carrier battle of the war in the Pacific Despite myth the Japanese carrier force was not destroyed at Midway but survived to still prove a threat in the Pacific Theater Nowhere was this clearer than in the battle of Santa Cruz of October 1942 The stalemate on the ground in the Guadalcanal campaign led to the major naval forces of both belligerents becoming inexorably more and more involved in the fighting each seeking to win the major victory that would open the way for a breakthrough on land as well The Japanese were able to gain a tactical victory at Santa Cruz and came very close to scoring a strategic victory but they paid a very high price in aircraft and aircrew that prevented them from following up their victory In terms of their invaluable aircrew the battle was much more costly than even Midway and had a serious impact on the ability of the Japanese to carry out carrier warfare in a meaningful manner Illustrated richly throughout this volume examines the encounter at Santa Cruz and its significance

**Supremacy at Sea** Evan Mawdsley,2024-05-03 The gripping account of the U S Navy s fast carrier force and how its Central Pacific campaign in 1944 marked the achievement of American naval supremacy Task Force 58 was World War II s most powerful battle fleet Made up in mid 1944 of sixteen aircraft carriers over a thousand combat aircraft and an armada of escorts it was vital to victory over Japan In this compelling account Evan Mawdsley charts the 3 500 mile dash of the Big Blue Fleet across the Central Pacific in the first six months of 1944 overwhelming enemy opposition and transforming the nature of naval warfare The Battle of the Philippine Sea in June 1944 crushed the enemy s naval air force and secured war winning air bases in the Mariana Islands Mawdsley examines the elements of the rapidly assembled force ships planes and 100 000 officers and men as well as the advanced bases and fleet train that provided such astounding mobility Task Force 58 s campaign marked the achievement of naval supremacy by the United States a status it maintains to this day

**The War for the Seas** Evan Mawdsley,2019-09-24 A bold and authoritative maritime history of World War II which takes a fully international perspective and challenges our existing understanding Command of the oceans was crucial to winning World War II By the start of 1942 Nazi Germany had conquered mainland Europe and Imperial Japan had overrun Southeast Asia and much of the Pacific How could Britain and distant America prevail in what had become a war of continents In this definitive account Evan Mawdsley traces events at sea from the first U boat operations in 1939 to the surrender of Japan He argues that the Allied counterattack involved not just decisive sea battles but a long struggle to control shipping arteries and move armies across the sea Covering all the major actions in the Atlantic and Pacific oceans as well as those in the narrow seas this book interweaves for the first time the endeavors of the maritime forces of the British Empire the United States

Germany and Japan as well as those of France Italy and Russia

**Carrier Strike** Eric Hammel,2020-12-21 CARRIER

STRIKE The Battle of the Santa Cruz Islands October 1942 By Eric Hammel The Battle of the Santa Cruz Islands a strategic naval action in the bitter Guadalcanal Campaign was history s fourth carrier versus carrier naval battle Though technically a

Japanese victory the battle proved to be the Empire of Japan's last serious attempt to win the Pacific War by means of an all out carrier confrontation. Only one other carrier battle occurred in the Pacific War in June 1944 in the Philippine Sea. By then however the U.S. Navy's Fast Carrier Task Force was operational and Japan's dwindling fleet of carriers was outnumbered and completely outclassed. Though hundreds of Japanese naval aviators perished in the great Marianas Turkey Shoot of June 19-20, 1944, it was during the first four carrier battles in the six month period from early May through late October 1942 that the fate of Japan's small elite naval air arm was sealed. It was at Coral Sea in May that Japan's juggernaut across the Pacific was blunted. It was at Midway in June that Japan's great carrier fleet was cut down to manageable size. And it was at Eastern Solomons in August and Santa Cruz in October that Japan's last best carrier air groups were ground to dust. After their technical victory at Santa Cruz the Japanese withdrew their carriers from the South Pacific and were never able to use them again as a strategically decisive weapon. Of the four Japanese aircraft carriers that participated in the Santa Cruz battle only one survived the war. Following Santa Cruz and the subsequent series of air and surface engagements known as the Naval Battle of Guadalcanal the Imperial Navy's Combined Fleet never again attempted a meaningful strategic showdown with the U.S. Pacific Fleet. Though several subsequent surface actions in the Solomons were clearly Japanese victories their results were short lived. After November 1942 Japan could not again muster the staying power or the willpower to wage a strategic war with her navy. Once the veteran carrier air groups had been shredded at Eastern Solomons and Santa Cruz Japanese carriers ceased to be a strategic weapon. The Santa Cruz clash was deemed a Japanese victory because U.S. naval forces withdrew from the battlefield. That is how victory and defeat are strictly determined. But on the broader strategic level the U.S. Navy won at Santa Cruz because it was able to achieve its strategic goal of holding the line and buying time. Japan was unable to achieve her strategic goal of defeating the U.S. Pacific Fleet in a final decisive all or nothing battle. The technical victory cost Japan any serious hope she had of winning the Pacific naval war. The victory at Santa Cruz cost Japan her last best hope to win the war in the Pacific. Once again author historian Eric Hammel brings to the reading public an exciting narrative filled with the latest information and written in the edge of the seat style that his readers have enjoyed for nearly two decades in nearly thirty acclaimed military history books. As was the case with its companion volume *Carrier Clash* this new book is based upon American and Japanese battle reports and the recollections of many airmen and seamen who took part.

*The First Team and the Guadalcanal Campaign* John B. Lundstrom, 2005-07-01. From huddled command conferences to cramped cockpits John Lundstrom guides readers through the maelstrom of air combat at Guadalcanal in this impressively researched sequel to his earlier study. Picking up the story after Midway the author presents a scrupulously accurate account of what happened describing in rich detail the actual planes and pilots pitted in the ferocious battles that helped turn the tide of war. Based on correspondence with 150 American and Japanese veterans or their families he reveals the thoughts, pressures and fears of the airmen and their crews as he reconstructs the battles. These are the story of the Wildcat and Zero.
