Post-Apartheid Gothic Mélanie Joseph-Vilain,2021-03-19 Post Apartheid Gothic White South African Writers and Space analyzes the representation of space in recent works by South African writers By combining analytical tools borrowed from Gothic studies with geocritical and postcolonial approaches M lanie Joseph Vilain assesses the literary mechanisms utilized by Damon Galgut Henrietta Rose Innes Lauren Beukes Justin Carwright and Lynn Freed to negotiate the complexities of post apartheid identities in their fiction Joseph Vilain argues that the literary representations of emblematic places real or imagined the home the farm the city or the non places of dystopia express and reveal anxieties linked to the sharing of space in post apartheid South Africa The text successively re visits the places that have been shaping South African white writing since Olive Schreiner s African Farm in other words its topoi both in the etymological sense of place and in the literary sense of recurring themes or arguments Joseph Vilain argues that these Gothicized topoi have provided writers with tools to explore the deep anxieties generated by the redefinition of South African society as the Rainbow Nation While focusing specifically on the South African avatars of the Gothic and their interaction with local forms and genres like the plaasroman the text also discusses the impact of globalization on South African literary cultural social and political identities

The New Routledge Companion to Science Fiction Mark Bould,Andrew M. Butler,Sherryl Vint,2024-06-13 The New Routledge Companion to Science Fiction provides an overview of the study of science fiction across multiple academic fields It offers a new conceptualisation of the field today marking the significant changes that have taken place in sf studies over the past 15 years Building on the

pioneering research in the first edition the collection reorganises historical coverage of the genre to emphasise new geographical areas of cultural production and the growing importance of media beyond print It also updates and expands the range of frameworks that are relevant to the study of science fiction The periodisation has been reframed to include new chapters focusing on science fiction produced outside the Anglophone context including South Asian Latin American Chinese and African diasporic science fiction The contributors use both well established critical and theoretical approaches and embrace a range of new ones including biopolitics climate crisis critical ethnic studies disability studies energy humanities game studies medical humanities new materialisms and sonic studies This book is an invaluable resource for students and established scholars seeking to understand the vast range of engagements with science fiction in scholarship today Chapter 39 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4 0 license [Terrains of Imagination in Contemporary Finnish Literature](#) Sarianna Kankkunen, 2024-12-24 This study examines experienced space in Maarit Verronen's works of prose fiction The study aligns itself with the contemporary approach often referred to as spatial literary studies a movement connected to the spatial turn within the humanities Theoretically the study draws on multiple fields of spatial studies from semiotics of space to critical theory and poststructuralism By providing a categorization on different approaches within spatial literary studies the study promotes literary studies that utilize spatial theory and explores how spatial concepts can be effectively used as tools for close reading Since the study aims to provide a longitudinal section of Verronen's oeuvre the selected material spans the author's early works from the 1990s to the late 2000s The corpus involves six novels and two short stories The analysis begins with the fantastic realms of Verronen's early career proceeds to consider wilderness and wild spaces turns to visions of dystopic futures and concludes in the narratives of homecoming and homesteading The study shows that Verronen's fantasy draws its allegorical potential from the juxtaposition of spatialized binary semantic oppositions By analyzing Verronen's dystopian novels the study unravels the spatial nature of the genre and the critical potential it encompasses Verronen's narratives on wilderness are approached through the notion of spatial practices and in the context of alienation and postpastoralism Finally the analysis on the literary homes and the acts of homesteading in Verronen's novels foregrounds the open connected and inclusive nature of the contemporary notion of home and new forms of attachment to place both of which are under an active debate in spatial literary studies By bringing together spatial literary studies and Verronen's works this research adds to the study of Finnish literature and contemporary literature's emphasis on space spatiality and environmental issues Moreover the study contributes to the knowledge on the genres of fantasy and dystopia as well as to the study of classic literary tropes and their contemporary manifestations As the study contextualizes Verronen's works within Nordic and European literatures it draws attention to the thematic and stylistic connections that link her writing to broader literary trends and traditions [Contemporary British Fiction](#) Nick
