## **Post Apocalyptic Story Insights:**

**Sociological Insights of Great Thinkers** Christofer R. Edling, Jens Rydgren, 2010-11-18 In this book leading sociologists expand the scope of their discipline by revealing the sociological aspects of the works of great philosophers, scientists and writers. Sociologists have long recognized that sociological insight can be gleaned from creative thinkers outside their formal discipline. *Sociological Insights of Great Thinkers* Sociology through Literature, Philosophy and Science captures and examines those insights in 32 essays that discuss scholars and writers not normally associated with any sociological school of thought. Following a tradition of enriching the sociological toolkit by finding influence in philosophy and literature, the volume's contributors, an international group of renowned scholars, eschew biography to focus solely on sociological interpretations that can be drawn from the work of many of history's preeminent thinkers. Among the book's subjects are philosophers such as Aristotle, Plato, Kant, and Cassirer; scientists such as Darwin and Galileo; and authors such as Kafka, Proust, and Shakespeare. The essays not only allow readers to see such thinkers in a new light but underscore the fact that sociological questions have lain at the very heart of humanity throughout history.

### **Perceiving Environments.**

**Protagonist Perspectives in Post-Apocalyptic Novels** Ilayda Can, 2023-08-31 Bachelor Thesis from the year 2020 in the subject American Studies Literature grade 1.5 University of Flensburg Institut für Sprache, Literatur und Medien course American Literature language English abstract: The allure of dystopian novels lies in how they scrutinize the relationships between humans and the environment in a post-apocalyptic world. This introduction discusses mankind's fascination with the end of the world and how authors utilize the opportunity to create innovative ideas on a tabula rasa to shape the social fabric and environment of a post-apocalyptic world. The analysis begins with the origins of the apocalypse concept in eschatological narratives, compares Biblical and Qur'anic depictions, and investigates how contemporary authors utilize and adapt these elements to address current and forthcoming environmental issues in their works.

### *Multimodal Insights into Translation and Interpreting Studies*

Didem Tuna Küçük, Nazan Müge Uysal, 2024-12-10 *Multimodal Insights into Translation and Interpreting Studies* sets out to provide a stimulating discussion and an integrated display of information as a reflection of a range of theoretical approaches in translation and interpreting studies. Over recent years the field has expanded considerably and the scholars of translation and interpreting studies have initiated the proliferation of new concepts, strategies and approaches resulting from the ongoing contact and communication of translation and interpreting studies with a variety of disciplines. To illustrate the diverse spectrum of translation and interpreting both as a scholarly praxis and a professional field of expertise making strides on the continuum of professionalization from the perspective of the sociology of professions, the book is divided thematically into three parts: discussions on semiotics of translation, paratextual and peritextual analysis in literary translation and professionalization of translation and interpreting. Serving the multimodality aspect the book is designed to embody contemporary understandings and innovative thinking within the well-established research area of

literary translation on the one hand and the sociological approach to translation as a relatively recent phenomenon that has become a salient field of study as of 90s onwards in translation and interpreting studies on the other **Absent Rebels:**
