Burke was a dazzling orator and a visionary theorist who spent his long political career fighting abuses of power. He wrote at a time of great change against the backdrop of the revolt of the American colonies, the expansion of the British Empire, the collapse of Ireland, and the French Revolution. Burke argued passionately in support of the American revolutionaries and in equally impassioned opposition to the horrors of the unfolding French Revolution. Making a case for upholding established rights and customs and advocating incremental reform rather than radical revolutionary change, Burke's writings have profoundly influenced modern democracies up to the present day. Edited and Introduced by Jesse Norman Reflections on the Revolution in France Edmund Burke, 2018-10-14 Edmund Burke's *Reflections on the Revolution in France* is considered by many to be a masterpiece of political analysis and a compelling rationale against the French Revolution. Originally written as a letter in response to a young Parisian and later expanded upon and published in book format in January 1790, the work has greatly influenced conservative and classic liberal intellectuals and stands as a powerful argument against violent revolutions, lawlessness, and unrest. Prior to 1790, Burke was a well-known member of the British House of Commons and a vocal supporter of the American Revolution. His condemnation of the French Revolution shocked many of his peers and supporters. Burke viewed the French Revolution as a violent and chaotic war without any guiding ideology or respect for the rule of law, and feared it would lead to a situation that was both dangerous and corrupt. Many of Burke's predictions came true as the Revolution devolved into bloodshed and anarchy with the Reign of Terror beginning in 1793 and then leading to the eventual military dictatorship of Napoleon Bonaparte. Burke's work stands as an enduring statement in support of tradition, hereditary power, property rights, duty, and the monarchy.

Reflections on the Revolution in France Edmund Burke, 2001 The French Revolution is a defining moment in world history and usually it has been approached by English-speaking readers through the picture painted of it by Edmund Burke whose book is a classic work in a range of fields from history through political science to literature. Alone among recent versions, this edition reprints the text of the first edition of 1790 and shows how Burke amended it as his knowledge of the Revolution deepened. Reflections on the Revolution in France Edmund Burke, 2018-07-06 *Reflections on the Revolution in France* by Edmund Burke is a political pamphlet written by the Irish statesman Edmund Burke and published in November 1790. One of the best-known intellectual attacks against the French Revolution, *Reflections* is a defining tract of modern conservatism as well as an important contribution to international theory. Above all else, it has been one of the defining efforts of Edmund Burke's transformation of traditionalism into a self-conscious and fully conceived political philosophy of conservatism. It may not be unnecessary to inform the reader that the following *Reflections* had their origin in a correspondence between the author and a very young gentleman at Paris who did him the honor of desiring his opinion upon the important transactions which then and ever since have so much occupied the attention of all men. An answer was written some time in the month of October 1789 but it was kept back upon prudential

considerations That letter is alluded to in the beginning of the following sheets It has been since forwarded to the person to whom it was addressed The reasons for the delay in sending it were assigned in a short letter to the same gentleman This produced on his part a new and pressing application for the author s sentiments

It may not be unnecessary to inform the reader that the following Reflections had their origin in a correspondence between the author and a very young gentleman at Paris who did him the honor of desiring his opinion upon the important transactions which then and ever since have so much occupied the attention of all men An answer was written some time in the month of October 1789 but it was kept back upon prudential considerations That letter is alluded to in the beginning of the following sheets It has been since forwarded to the person to whom it was addressed The reasons for the delay in sending it were assigned in a short letter to the same gentleman This produced on his part a new and pressing application for the author s sentiments

The author began a second and more full discussion on the subject This he had some thoughts of publishing early in the last spring but the matter gaining upon him he found that what he had undertaken not only far exceeded the measure of a letter but that its importance required rather a more detailed consideration than at that time he had any leisure to bestow upon it However having thrown down his first thoughts in the form of a letter and indeed when he sat down to write having intended it for a private letter he found it difficult to change the form of address when his sentiments had grown into a greater extent and had received another direction A different plan he is sensible might be more favorable to a commodious division and distribution of his matter

An Analysis of Edmund Burke's Reflections on the Revolution in France Riley Quinn,2017-07-05

Edmund Burke s 1791

Reflections on the Revolution in France is a strong example of how the thinking skills of analysis and reasoning can support even the most rhetorical of arguments Often cited as the foundational work of modern conservative political thought Burke s Reflections is a sustained argument against the French Revolution Though Burke is in many ways not interested in rational close analysis of the arguments in favour of the revolution he points out a crucial flaw in revolutionary thought upon which he builds his argument For Burke that flaw was the sheer threat that revolution poses to life property and society

Sceptical about the utopian urge to utterly reconstruct society in line with rational principles Burke argued strongly for conservative progress a continual slow refinement of government and political theory which could move forward without completely overturning the old structures of state and society

Old state institutions he reasoned might not be perfect but they work well enough to keep things ticking along Any

change made to improve them therefore should be slow not revolutionary While Burke s arguments are deliberately not reasoned in the rational style of those who supported the revolution they show persuasive reasoning at its very best
