## Proust Et Ruskin:

**On Reading Ruskin** Marcel Proust, 1989-07-01 Early in his career Marcel Proust who greatly admired John Ruskin published translations of two works by the English critic La Bible d Amiens 1900 and Sesame et les Lys 1906 He wrote a substantial preface to each book and provided discursive notes that were themselves often small essays Rare now even in their French versions the preface to La Bible d Amiens and the notes to both books have never before been available in English In bringing them together with the preface to Sesame et les Lys this new book completes the translation into English of the important critical writings of Proust Expertly edited and translated and introduced by a brilliant forty page essay and a fascinating bibliographical note by Richard Macksey It is an event for celebration Proust emerges from these essays and notes as one of the truly great critics Gabriel Josipovici Times Literary Supplement A welcome addition to English language Proust texts and I think one long overdue Germain Bree Kenan Professor Emerita Wake Forest University *Proust as Interpreter of Ruskin* Cynthia J. Gamble, 2002 **Proust Et Ruskin** André Maurois, Proust's Cup of Tea Emily Eells, 2017-03-02 Proust's Cup of Tea analyzes Proust's reading of various Victorian authors and shows how they contributed to *A la recherche du temps perdu* This book proves that British literature and art played a fundamental role in Proust's writing process by citing from the manuscript versions of his novel as well as from his correspondence essays and the lengthy critical apparatus accompanying his translations of Ruskin Eells reflects here on why Proust was attracted to Victorian culture and how he incorporated it into his novel The works of the British novelists he was most interested in Thomas Hardy and George Eliot address questions of gender which Proust develops in his own work He builds *Sodome et Gomorrhe* I the section of his novel focusing on homosexuality on a series of explicit citations and guarded allusions to Shakespeare Darwin Walter Scott Oscar Wilde and Robert Louis Stevenson Eells explores how Proust followed in the pioneering footsteps of those British writers who had ventured beyond the boundaries of conventional sexuality though he took pains to erase their traces in the definitive version of his work This study also highlights how Proust made his fictitious painter Elstir into a master of ambiguity by modeling his art on Turner the Pre Raphaelites and Whistler Eells shows that Proust drew on Victorian culture in his depiction of sexual ambiguity arguing that he confounded eroticism and aestheticism in the way he inextricably linked the man woman figure with British art and literature As Proust aestheticized male and female homosexuality using references to British art and letters Eells coins the term Anglosexuality to refer to his characters of the third sex She defines Anglosexuality as an intersexuality represented through intertextuality as an artistic sensitivity an aesthetic stance and a new way of seeing Proust's Cup of Tea thus demonstrates that Victorian culture and homoeroticism form one of the cornerstones of Proust's monumental work *Ruskin and the French before Marcel Proust* John Ruskin, Proust's Songbook Jennifer Rushworth, 2024-06-04 In Proust's Songbook Jennifer Rushworth analyzes and theorizes the presence and role of songs in Marcel Proust's novel *la recherche du temps perdu* In Search of Lost Time Instead of focusing on instrumental music and

large scale forms such as symphonies and opera as is common in Proust musical studies Rushworth argues for the centrality of songs and lyrics in Proust's opus. Her work analyzes the ways in which the author inserted songs at key turning points in his novel and how he drew inspiration from contemporary composers and theorists of song. Rushworth presents detailed readings of five moments of song in *la recherche du temps perdu* highlighting the song's significance by paying close attention to their lyrics. Music, composers, and histories. Rushworth interprets these episodes through theoretical reflections on song and voice, drawing particularly from the works of Reynaldo Hahn and Roland Barthes. She argues that songs in Proust's novel are connected and resonate with one another across the different volumes, yet also shows how song for Proust is a solo amateur and intimate affair. In addition, she points to Proust's juxtapositions of songs with meditations on the notion of *mauvaise musique* (bad music) to demonstrate the existence of a blurred boundary between songs that are popular and songs that are art. According to Rushworth, a song for Proust has a special relation to repetition and memory due to its typical brevity and that song itself becomes a mode of resistance in *la Recherche*, especially on the part of characters in the face of family and familial expectations. She also defines the songs in Proust's novel as songs of farewell, noting that to sing farewell is a means to resist the very parting that is being expressed and demonstrates how songs in formal terms resist the forward impetus of narrative.

*The Invisible Masterpiece* Hans Belting, 2001-09. The invisible masterpiece then is an unattainable ideal, an ideal that has both bewitched and bewildered artists. The Invisible Masterpiece is an unusual reconstruction of the history of the work of art since 1800 in which Hans Belting explores and explains the dreams and fears, the triumphs and failures of modernity's painters and sculptors.

*The Orient of Style* Beryl Schlossman, 1991. In this study of modernist aesthetics, Beryl Schlossman reveals how for such writers as Marcel Proust, Gustave Flaubert, and Charles Baudelaire, the Orient came to symbolize the highest aspirations of literary representation. She demonstrates that through allegory, modernism became a style itself, a style that married the ancient and the modern and that emerged as both a cause and an effect, both an ideal construct and an textual materiality, all symbolized by the Orient, land of style, place of plurality and site of the coexistence of holy lands.

Toward the end of *Remembrance of Things Past*, the narrator describes the act of creating a work of art as a conversion of sensation into a spiritual equivalent. By means of such allegories of conversion, Schlossman shows the modernist artist disappeared within the work of art and left behind the trace of his sublime vocation, a vocation in which he was transformed in Schlossman's words into a kind of priest kneeling at the altar of beauty before the masked divinity of representation. The author shows how allegory, the representation of the symbolic as something real, was adapted by modernist writers to reflect subjectivity while masking an authorial origin. She reveals how modernist allegory arose as Walter Benjamin suggests at the crossroads of history, sociology, economics, urban architecture, and art, providing a kind of map of capitalism and was produced through the eyes of a melancholic gazing at a monument of absence.
