one of the hardest tasks ever to bear when it comes to making humans good humans it s a lifetime job but it is worth it in million ways Parenting unlike other endeavours works careers or courses in the world is not formally learned yet it is axiomatic to say that it forms a strong pivot to what other works careers professions and vocations disciplines would shape like in the society It is quite not incongruous to present parenting as that mould through which the society is formed This alone makes it worthy of being seen as a vocation Parenting role is never a one gender thing it s an ineluctable responsibility of both genders Leaving parenting to the major care of a gender male or female as required in marriage is quite disastrous only a very few children come out good out of this situation hence every circumstance that pose to cause this must be passionately avoided and if not so easy adequate provisions must be made available for proper care Parenting has to do with discipline refinement formation building construction instruction guidance protection and provision All these are energy sucking and tiresome roles which require selflessness and absolute attention in their involvements Sometimes parenting comes in to overthrow or shut down other professional engagements it is that demanding In this book stages of development in a child s formation signs neurodiversity as well as tips to making good children in potentials shall be dwelt on PARENTING IS MORE THAN A CAREER IT S A LIFE MAKING JOB THAT MUST NOT BE TOYED WITH AT ALL TIME Resource Foster Parent's Survival Guide Cheryl Mitchell-Welch,2014-04 **Handbook of Parenting: Children and parenting** Marc H.
