Psychology of Entertainment Jennings Bryant, Peter

Vorderer, 2013-10-31 As entertainment becomes a trillion dollar a year industry worldwide as our modern era increasingly lives up to its label of the entertainment age and as economists begin to recognize that entertainment has become the driving force of the new world economy it is safe to say that scholars are beginning to take entertainment seriously. The scholarly spin on entertainment has been manifested in traditional ways as well as innovative ones. Representing the current state of theory and research *Psychology of Entertainment* promises to be the most comprehensive and up to date volume on entertainment. It serves to define the new area of study and provides a theoretical spin for future work in the area. Divided into three basic parts this book addresses the fundamental mechanisms and processes involved in orienting to and selecting entertainment fare as well as receiving and processing it. It explores the mechanisms and processes by which we are entertained by the media messages we select and receive and provides an opportunity for the application of well established as well as emerging psychological and psychobiological theories to be applied to the study of entertainment in ways that seldom have been utilized previously. *Psychology of Entertainment* will appeal to scholars, researchers and graduate students in media studies and mass communication, psychology, marketing and other areas contributing to the entertainment studies area.

Embodied Visions Torben Grodal, 2009-03-17 *Embodied Visions* presents a groundbreaking analysis of film through the lens of bioculturalism revealing how human biology as well as human culture determine how films are made and experienced. Throughout his study Torben Grodal uses the breakthroughs of modern brain science to explain central features

of film aesthetics and to construct a general model of aesthetic experience what he terms the PECMA flow model that demonstrates the movement of information and emotions in the brain when viewing film Examining a wide array of genres animation romance pornography fantasy horror from evolutionary and psychological frameworks Grodal expands his scope to reflect on social issues at the intersection of film theory and neuropsychology including moral problems in film viewing how we experience realism and character identification and the value of the subjective forms that cinema elaborates Embodied Visions broadens the theoretical framework of cognitive approaches to cinema while contributing toward a growing body of work on the relation between biology and culture [Evolutionary Psychology and Digital Games](#) Johannes Breuer,Daniel Pietschmann,Benny Liebold,Benjamin P. Lange,2018-10-09 Evolutionary Psychology and Digital Games Digital Hunter Gatherers is the first edited volume that systematically applies evolutionary psychology to the study of the use and effects of digital games The book is divided into four parts Theories and Methods Emotion and Morality Social Interaction Learning and Motivation These topics reflect the main areas of digital games research as well as some of the basic categories of psychological research The book is meant as a resource for researchers and graduate students in psychology anthropology media studies and communication as well as video game designers who are interested in learning more about the evolutionary roots of player behaviors and experiences
