Alternate History Novel Blueprint:

What If . . . Book of Alternative History Jeff Greenfield, 2023-08-15 Have you ever wondered what the world would be like if history had happened differently? What if Watergate hadn't been uncovered? Communism had failed? Japan had not struck Pearl Harbor? The Cuban Missile Crisis had escalated? The Vikings had colonized North America? Rome never fell? The Soviets had won the space race? The Beatles had never formed? In compelling narratives, historical experts consider these and many more intriguing questions in this fascinating look at what might have been. Each monumental event includes detailed articles by historians, professors, and scholars that pose hypothetical answers to various questions, potential timelines, and full-color illustrations that detail a different outcome. Praise for Jeff Greenfield's works of alternative history: "Shrewdly written, often riveting." —The New York Times; "A fascinating premise. Thoughtful and sophisticated, a book political junkies will adore." —The Washington Post; "Well-researched and thought through an interesting, plausible exercise." —Kirkus Reviews

Future Narratives Christoph Bode, Rainer Dietrich, 2013-10-29 This head volume of the *Narrating Futures* series defines and identifies Future Narratives. It parses their characteristic features and aims at an abstract classification of the whole corpus irrespective of its concrete manifestations across the media. Drawing on different theorems and approaches, it offers a unified theory and a poetics of Future Narratives. Locating the media historical moment of their emergence, this volume paves the way for the following volumes which deal with how Future Narratives are refracted through different media.

Novel Histories Roland Boer, 1997 William Gibson and the Future of Contemporary Culture Mitch R. Murray, Mathias Nilges, 2021-03-15 William Gibson is frequently described as one of the most influential writers of the past few decades, yet his body of work has only been studied partially and without full recognition of its implications for literature and culture beyond science fiction. It is high time for a book that explores the significance and wide-ranging impact of Gibson's fiction. In the 1970s and 80s, Gibson, the Godfather of Cyberpunk, rejuvenated science fiction. In groundbreaking works such as *Neuromancer*, which changed science fiction as we knew it, Gibson provided us with a language and imaginary through which it became possible to make sense of the newly emerging world of globalization and the digital and media age. Ever since Gibson's reformulation of science fiction has provided us not just with radically innovative visions of the future but indeed with trenchant analyses of our historical present and of the emergence and exhaustion of possible futures. Contributors: Maria Alberto, Andrew M. Butler, Amy J. Elias, Christian Haines, Kylie Korsnack, Mathias Nilges, Malka Older, Aron Pease, Lisa Swanstrom, Takayuki Tatsumi, Sherryl Vint, Phillip E. Wegner, Roger Whitson, Charles Yu.

The Routledge Introduction to Canadian Fantastic Literature Allan Weiss, 2020-12-29 This study introduces the history, themes, and critical responses to Canadian fantastic literature. Taking a chronological approach, this volume covers the main periods of Canadian science fiction and fantasy from the early nineteenth century to the first decades of the twenty-first century. The book examines both the texts and the contexts of Canadian writing in the fantastic, analyzing themes and techniques in novels and short stories.

and looking at both national and international contexts of the literature's history. This introduction will offer a coherent narrative of Canadian fantastic literature through analysis of the major texts and authors in the field and through relating the authors' work to the world around them. **Science Fiction and the Ethics of Artificial Wombs** Evie Kendal, 2025-12-11

In this revolutionary book Evie Kendal explores the potential that ectogenesis has to promote sexual equality in human reproduction and the role science fiction plays in imagining its realisation. **The Publishers Weekly**, 2003 **The Art of**

Charlie Chan Hock Chye Sonny Liew, 2016-03-01 NEW YORK TIMES BESTSELLER From a bestselling graphic novelist

comes a hugely ambitious stylistically acrobatic work The New York Times Book Review that brings us on a uniquely moving funny and thought provoking journey through the life of an artist and the history of a nation. Meet Charlie Chan Hock Chye.

Now in his early 70s Chan has been making comics in his native Singapore since 1954 when he was a boy of 16. As he looks back on his career over five decades we see his stories unfold before us in a dazzling array of art styles and forms their development mirroring the evolution in the political and social landscape of his homeland and of the comic book medium itself. With *The Art of Charlie Chan Hock Chye* Sonny Liew has drawn together a myriad of genres to create a thoroughly ingenious and engaging work where the line between truth and construct may sometimes be blurred but where the story told is always enthralling. *Historia* Louis Gerard Mendoza, 2001

The nature of ethnic identity has been a major issue in the Mexican American community for decades now. *Historia: The Literary Making of Chicana and Chicano History* makes a superb contribution to the multidisciplinary exploration of ways Mexican Americans have chosen to present their past through both factual and fictional narratives. Whereas history has offered frameworks for interpreting generational changes in the

understanding of identity literature has been particularly rich in exploring themes of power and domination and of intragroup complexities. Louis Gerard Mendoza argues in this innovative look at historical and imaginative literatures and their role in the formation of ethnic identity. Focusing on late twentieth century literature and history by American writers of Mexican descent Mendoza examines how style purpose and context function to facilitate or constrain the understanding of the past. By

juxtaposing the literary and the historical he provides new insight on culture agency and experience. Mendoza accepts as his starting point the generational model posited by historian Mario García then contrasts for each generation the nuances and contradictions offered by one or more Chicana/o creative writers. Other historians whose works are centrally considered

include Juan Gómez Quiñones Rodolfo Alvarez Ricardo Romo David Montejano and Carlos Muñoz while the literary writers featured include Jovita González Alejandro Morales Sara Estela Ramírez Teresa Paloma Acosta Oscar Zeta Acosta and Américo Paredes. Mendoza argues that history is the narrative battleground upon which literature is based the writing and rewriting of Chicano history thus becomes an important subtext of Chicana/o literature. However he contends that most Chicana/o historical narratives are integrated uncritically into literary analysis to establish background resulting in the invocation of the histories as representations of the real.

Libraries Borderlands scholars and those interested in the broad issues of cultural

studies will want to own Mendoza's innovative book which instead of insisting on the strict separation of the two genres of history and literature seeks ways to integrate them through the new critical analysis **From Goethe to Gide** Mary Orr, Lesley Sharpe, 2005 *From Goethe to Gide* brings together twelve essays on canonical male writers six French and six German commissioned from leading specialists from Britain and North America. These essays aimed at final year undergraduates and postgraduates focus on Rousseau Goethe Schiller Hoffmann Stendhal Baudelaire Flaubert Heine Fontane Zola Kafka Gide. The collection therefore foregrounds the major authors taught on British university BA courses in French and German. Working with the tools of feminist criticism the authors demonstrate how feminist readings of these writings can illuminate far more than attitudes towards women. **The New Encyclopedia of Science Fiction** James E. Gunn, 1988 From 19th century beginnings to the cutting edge of Cyberpunk science fiction has powerfully gripped the modern imagination. Gunn explores the fascinating landscape of how science fiction became what it is today. An eye opener for every fan of the genre 8 pages of full color illustrations. **We Tell Ourselves Stories in Order to Live** Joan Didion, 2006-10-17 Publisher description *What it is We Do when We Read Science Fiction* Paul Kincaid, 2008 Paul Kincaid is a critic and reviewer a regular contributor to a variety of magazines and journals such as the BSFA's Vector Foundation and the New York Review of Science Fiction. He has also contributed to many SF reference works and was for 11 years the administrator of the Arthur C Clarke Award. He is the recipient of the Thomas D Clareson Award for services to science fiction. A collection of Kincaid's essays on SF that range from the mid 1980s to the present. **Science Fiction & Fantasy Book Review Annual**, 1990 **The New York Review of Science Fiction**, 2000 *American Bookseller*, 1990

Blueprints Virginia A. Arnold, 1989 **Publishers' Directory** Gale Group, 2003 Provides detailed information on more than 20 000 US and Canadian publishers including nearly 1 000 distributors, wholesalers and jobbers as well as small independent presses.
