**Self-Knowledge Through The Eyes Of AI** Ilias Boufis, 2025-07-07

We live in a world where humans constantly search for meaning, striving to live better, become better, and understand themselves more deeply. In this pursuit, a powerful new presence has entered our lives: Artificial Intelligence. While most focus on what AI can do, this book explores something far more intriguing: what AI can see in us. What happens when a machine designed for logic and data begins to interpret self-awareness, emotion, and human growth? Self-Knowledge Through the Eyes of AI is the result of a compelling dialogue between human curiosity and synthetic perception. It invites you to question not only yourself but also the evolving lens through which technology perceives the human experience.
