**Literature and Other Media** Saija Isomaa,Jyrki Korpua,Jouni Teittinen,2020-08-27 This collection of essays examines various forms of dystopian fiction in literature television and digital games It frames the timely trend of dystopian fiction as a thematic field that accommodates several genres from societal dystopia to apocalyptic narratives and climate fiction many of them examining the hazards of science and technology to human societies and the ecosystem These are genres of the Anthropocene par excellence capturing the dilemmas of the human condition in the current increasingly precarious epoch The essays offer new interpretations of classical and contemporary works including the canonised prose of Orwell Atwood and Cormac McCarthy modern pop culture classics like Battlestar Galactica Fallout and Hunger Games and the work of Johanna Sinisalo a pioneer of Finnish speculative fiction From Thomas Pynchon to Watership Down the volume s multifaceted approach offers fresh perspectives to those already familiar with existing research but it is no less accessible for newcomers to the ever expanding field of dystopian studies **Evolution and Popular Narrative** ,2019-06-07 The contributors to this

volume share the assumption that popular narrative when viewed with an evolutionary lens offers an incisive index into human nature In theory narrative art could take a near infinity of possible forms In actual practice however particular motifs plot patterns stereotypical figures and artistic devices persistently resurface indicating specific predilections frequently at odds with our actual living conditions Our studies explore various media and genres to gauge the impact of our evolutionary inheritance in interdependence with the respective cultural environments on our aesthetic appreciation As they suggest research into mass culture is not only indispensable for evolutionary criticism but may also contribute to our understanding of prehistoric selection pressures that still influence modern preferences in popular narrative Contributions by David Andrews James Carney Mathias Clasen Brett Cooke Tam s D vid Barrett Tom Dolack Kathryn Duncan Isabel Behncke Izquierdo Joe Keener Alex C Parrish Todd K Platts Anna Rotkirch Judith P Saunders Michelle Scalise Sugiyama Dirk Vanderbeke and Sophia Wege *Savage North Chronicles Books 1-6* Lindsey Pogue,2020-11-10 Six books One unforgettable family An eighteen year journey of love loss and hope When the world ended Elle St James thought survival was about staying alive She was wrong It was about staying human In this complete collection follow an unlikely band of survivors as they navigate love loss and rebuilding civilization in a world where humanity itself has evolved From Elle s first terrifying discovery of her lethal abilities to Thea s final stand eighteen years later witness a family forged not by blood but by choice loyalty and the unbreakable bonds that form when everything else falls away What readers are saying An absolutely stunning work of fiction Goodreads Reviewer Lindsey Pogue mastered what it is to be human and the connections we build with one another Amazon Reviewer I would give this book more than five stars if I could BookBub Reviewer This complete collection includes six books The Darkest Winter The Longest Night Midnight Sun Fading Shadows Untamed Unbroken Perfect for readers who love Character driven post apocalyptic fiction Found family dynamics Slow burn romances with emotional depth Powers that feel more like burdens than gifts Hard earned happy endings that leave you wrecked Sometimes the most shattered souls make the fiercest protectors Sometimes love is the only thing that survives the end of everything And sometimes when the world strips away everything familiar the family you choose becomes the only thing worth fighting for Begin the journey that readers call the most beautiful story ever read Keywords a post apocalyptic survival action adventure series science fiction and fantasy survival fiction superhuman supernatural super powers for fans of The Stand by Stephen King The Arcana Chronicles by Kresley Cole The Great Alone by Kristin Hannah In The Ending Series world by lindsey fairleigh lindsey pogue lindsey sparks pandemic and Virus outbreak gritty apocalypse and horror setting science fiction and genetic engineering *Hope and Kinship in Contemporary Fiction* Gero Bauer,2024-01-11 Explores the emphasis that contemporary novels films and television series place on the present arguing that hope emerges from the potentiality of the here and now rather than the future and as intimately entangled with negotiations of structures of belonging Taking its cue from an understanding of hope as connoting an organizing temporality one which is often presumed

to be projecting into a future Hope and Kinship in Contemporary Fiction challenges this understanding arguing that hope emerges in practices of relationality in the present disentangling hope from a necessary correlation with futurity Through close readings of contemporary works including *The Road* *The Walking Dead* *Cloud Atlas* *Sense8* *The People in the Trees* and *A Little Life* Gero Bauer investigates how these texts explore structures of kinship as creative and affective practices of belonging and care that claim spaces beyond the heterosexual reproductive nuclear family In this context fictional figurations of the child often considered the bearer of the future are of particular interest Through these interventions into definitions of and reflections on fictional manifestations of hope and kinship Bauer s analyses intersect with queer theory new materialism and postcritical approaches to literature and cultural studies moving towards counterintuitively hopeful readings of the present moment

**Narrative in Culture** Astrid Erll, Roy Sommer, 2019-07-08 The collection showcases new research in the field of cultural and historical narratology Starting from the premise of the semantisation of narrative forms A N nning it explores the cultural situatedness and historical transformations of narrative with contributors developing new perspectives on key concepts of cultural and historical narratology such as unreliable narration and multiperspectivity The volume introduces original approaches to the study of narrative in culture highlighting its pivotal role for attention memory and resilience studies and for the imagination of crises the Anthropocene and the Post Apocalypse Addressing both fictional and non fictional narratives individual essays analyze the narrative making and unmaking of Europe Brexit and the Postcolonial Finally the collection features new research on narrative in media culture looking at the narrative logic of graphic novels picture books and newsmedia

Curtis,2010-07-17 Postapocalyptic Fiction and the Social Contract We ll Not Go Home Again provides a framework for our fascination with the apocalyptic events The popular appeal of the end of the world genre is clear in movies novels and television shows Even our political debates over global warming nuclear threats and pandemic disease reflect a concern about the possibility of such events This popular fascination is really a fascination with survival how can we come out alive And what would we do next The end of the world is not about species death but about beginning again This book uses postapocalyptic fiction as a terrain for thinking about the state of nature the hypothetical fiction that is the driving force behind the social contract The first half of the book examines novels that tell the story of the move from the state of nature to civil society through a Hobbesian a Lockean or a Rousseauian lens including Lucifer s Hammer by Larry Niven and Jerry Pournelle Alas Babylon by Pat Frank Malevil by Robert Merle and Into the Forest by Jean Hegland The latter half of the book examines Octavia Butler s postapocalyptic Parable series in which a new kind of social contract emerges one built on the fact of human dependence and vulnerability      **The Most Terrifying Apocalyptic Horror Stories** Robert Hickson,2019-11-27 You ve heard the strange reports of cannibalism that seems to be sweeping the country It all seemed so far fetched Now though you have witnessed it with your own eyes What will you do Read along and make your own decisions Choose wisely there is only one path to survival      **Stewardship and the Future of the Planet** Rachel Carnell,Chris Mounsey,2022-07-22 This volume examines historical views of stewardship that have sometimes allowed humans to ravage the earth as well as contemporary and futuristic visions of stewardship that will be necessary to achieve pragmatic progress to save life on earth as we know it The idea of stewardship human responsibility to tend the Earth has been central to human cultures throughout history as evident in the Judeo Christian Genesis story of the Garden of Eden and in a diverse range of parallel tales from

other traditions around the world Despite such foundational hortatory stories about preserving the earth on which we live humanity in the Anthropocene is nevertheless currently destroying the planet with breathtaking speed Much research on stewardship today in the disciplines of geography urban studies oceans research and green business practice offers insights that should help address the ecological challenges facing the planet Simultaneous scholarship in the humanities and other fields reminds us that the damage done to the planet has often been carried out in the name of tending the land In order to make progress in environmental stewardship scholars must speak to each other across the disciplinary boundaries as they do in this volume
