## **Global Trend Fairy Tale Retelling:**

**Global Trends in Translator and Interpreter Training** Séverine Hubscher-Davidson, Michal Borodo, 2012-06-07 This book looks at translator and interpreter training focusing on mediation and culture in a global context. It updates numerous research currents in translator and interpreter education by situating them in relation to broader curricular and technological discussions. Particular attention is given to the way in which translator and interpreter training relates both to other topics on university curricula and to recent developments in the professional sphere of language mediation. These include the new European standard for translation services and the ethical training of interpreters. The significant impact of new technologies in translation is also studied. These discussions take place in the context of an increasingly mature and sophisticated theoretical environment of translator and interpreter training research, one which recognizes the implications of discourses such as constructivism and objectives oriented design for new pedagogies in the field. The Routledge Companion to Children's Literature and Culture Claudia Nelson, Elisabeth Wesseling, Andrea Mei-Ying Wu, 2023-11-30 Focusing on significant and cutting edge preoccupations within children's literature scholarship, *The Routledge Companion to Children's Literature and Culture* presents a comprehensive overview of print, digital and electronic texts for children aged zero to thirteen as forms of world literature participating in a panoply of identity formations. Offering five distinct sections, this volume familiarizes students and beginning scholars with key concepts and methodological resources guiding contemporary inquiry into children's literature. Describes the major media formats and genres for texts expressly addressing children. Considers the production, distribution and valuing of children's books from an assortment of historical and contemporary perspectives, highlighting context as a driver of content. Maps how children's texts have historically presumed and prescribed certain identities on the part of their readers, sometimes addressing readers who share some part of the author's identity, sometimes seeking to educate the reader about a presumed other, and in recent decades increasingly foregrounding identities once lacking visibility and voice. Explores the historical evolutions and trans-regional contacts and interconnections in the long process of the formation of global children's literature, highlighting issues such as retranslation, transnationalism, transculturality and new digital formats for considering cultural crossings and renegotiations in the production of children's literature. Methodically presented and contextualized, this volume is an engaging introduction to this expanding and multifaceted field. *New Trends in Early Foreign Language Learning* Maria González Davies, 2012-01-17 This volume is the result of the presentations and discussions carried out at the Conference on Early Foreign Language Learning in Educational Contexts: Bridging Good Practices and Research, organized by the University of Ramon Llull, the University of Bari and LEND *Lingua e Nuova Didattica* in March 2010. At the conference, both teachers and researchers met to examine recent language teaching theories and practices from a transnational and intercultural perspective, on the one hand, and on the other, to fill the gap in the field of English as a Foreign Language (EFL) in schools and to pave the way for a

wider platform of discussion between School and University Since these two institutions have often had little contact and as there is excellent work carried out in both our attempt was to build more solid bridges across their contexts engaging school teachers in ongoing research and bringing everyday classroom practice nearer to university theoreticians in an open exchange forum so that the reflection on teaching and learning becomes relevant and rewarding for the participants involved in Early Foreign Language Learning in 21st century contexts Drawing on the main topics presented throughout the Conference this book has been structured around three main thematic areas 1 the Age Factor 2 CLIL and Content based research and practices and 3 developing intercultural competence use of the L1 and translation as mediation skills Each of these sections encompasses high quality contributions all informed by salient and recent research clear and justified theoretical standpoints and good practices which are appealing to an international audience and setting The editors sincerely hope that this volume contributes to widen the field of foreign language teaching and learning to include studies on young learners perceptions and performance At the same time they would like to highlight the decisive new focus on language learning adopted in the 21st century the inclusion of a wider vision of language acquisition one that highlights the relevance of using languages not only to communicate but more relevantly to mediate between cultures as a means to bring together the plurilingual and pluricultural citizens of our future

*Untaming Girlhoods* Cristina Santos, 2023-03-31 This is an interdisciplinary examination of depictions of girlhoods through a comparative study of foundational fairy tales revised and reimagined in popular narrative film and television adaptations The success of franchises such as *The Hunger Games* *Twilight* and *Divergence* have re-presented the young heroine as an empowered female and often a warrior hero in her own right Through a selection of popular culture touchstones this empowerment is questioned as a manipulation of feminist ideals of equality and a continuation of the traditional vision of female awakening centering on issues of personal choice agency physical violence purity and beauty By investigating re-occurring storytelling frameworks and archetypes *Untaming Girlhoods* examines different portrayals of girlhoods in the 20th and 21st century Anglo American cultural imaginary that configure modern girlhoods beyond the fairy tale princess or the damsel in distress into refigurations that venture away from the well trodden path for a new breakaway path to authentic selfhood This will be a useful and enlightening text for students and researchers in Girlhood Studies Gender Studies Film Studies Popular Culture and Media Studies Library Trends University of Illinois Library School, 1996
