## Alternate History Novel Framework:

**Alternate History** Kathleen Singles, 2013-10-14 While strictly speaking Alternate Histories are not Future Narratives their analysis can shed a clear light on why Future Narratives are so different from past narratives Trying to have it both ways most Alternate Histories subscribe to a conflicting set of beliefs concerning determinism and freedom of choice contingency and necessity For the very first time Alternate Histories are here discussed against the backdrop of their Other Future Narratives The volume contains in depth analyses of the classics of the genre such as Philip K. Dick's *The Man in the High Castle* and Philip Roth's *The Plot against America* as well as less widely discussed manifestations of the genre such as Dieter Kuhn's *N* Christian Kracht's *Ich werde hier sein im Sonnenschein und im Schatten* and Quentin Tarantino's film *Inglourious Basterds*

**Existential Science Fiction** Ryan Lizardi, 2022-01-05 This book explores contemporary existential science fiction media including film, television, and video games and their influence on society's conceptions of memory, identity, and humanity. Most poignantly, Ryan Lizardi argues, are the ways in which a recent cluster of science fiction media including *Gravity* (2013), *Interstellar* (2014), *Legion* (2017–2019), *Westworld* (2016–present), *SOMA* (2015), and *Death Stranding* (2019) among others present a vision of the future that is inextricably tied to an exploration of humanity that is more contemplative and comparative than traditional science fiction. The combination of the existential nature of this current trend in science fiction with the genre's ability to manifest these abstract concepts in a generic environment that is historically focused on new frontiers and ideas creates a powerful set of media texts that ask audiences to contemplate what it means to exist, think, and connect as human beings. Scholars of media studies, film studies, television studies, genre studies, and philosophy will find this book particularly useful.

**Science Fiction and the Historical Novel** Ian P. MacDonald, Kate Polak, 2024-09-16 If you woke to realize that you could rewrite your yesterday without knowing the kind of tomorrow it would grant you would you do it? Are the authors of our destiny working with an outline or spitballing confusing plotlines? Since the past changes possible futures to what alighting butterfly should we pay the most heed? This book explores the liminal space between speculative fiction and the historical novel. Staged as a transnational, multicultural conversation, it takes up a call originally made by Fredric Jameson in *Archaeologies of the Future* wherein he describes that flashpoint between speculative and historical genres as the symptom of a mutation in our relationship to historical time itself. Drawing together postcolonial feminist, cultural, Indigenous, and cognitive approaches, *Science Fiction and the Historical Novel* asks what the past can offer a future-oriented world and how the future can be imagined in relation to a past that seeks narratives of inevitability rather than possibility. Engaged with the idea of the past as a model for the future, authors in this volume probe the extent to which historical scripts delimit possibilities and how authors engaged with the practice of alternative pasts rewrite potentialities in the present.

**Global Science Fiction** Gary Westfahl, 2025-06-09 Science fiction represents a diverse community of writers and readers that spans the entire world. This collection provides a global tour of the genre with essays about Latin American

European African Arabic Indian Japanese and Chinese science fiction providing insights about how writers around the world have explored and reinvigorated the genre Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S Buckell Lourenco Mutarelli Stanislaw Lem Masande Ntshanga Tawfiq Al Hakim Anil Menon and Cixin Liu The contributing scholars examine how national experiences have shaped these narratives which often differ strikingly from Anglo American science fiction An introductory survey of foreign language science fiction in the United States endeavors to explain why so many of these texts have remained unknown to Anglophone readers An extensive bibliography lists numerous resources for further study of science fiction from various parts of the world

**Masculinities in Contemporary Science-Fiction Television** Sara Martín, Michael Pitts, 2025-11-13 Through a comprehensive analysis of popular contemporary science fiction television series this book underscores the genre's unique potential to both reflect and shape cultural perceptions of masculinity Each of its essays written by a host of international contributors analyse key series ranging from Firefly 2002 to Star Trek Picard 2020 23 Employing anti patriarchal and pro feminist perspectives they scrutinize the limited diversity among male characters in science fiction television shedding light on the underrepresentation of non heteronormative non white and transmasculine characters while also highlighting notable exceptions such as Altered Carbon 2018 20 Doom Patrol 2019 and The Umbrella Academy 2019 Against the backdrop of current discussions regarding toxic masculinity this book highlights the ways in which divergent masculinities shape and are shaped by the science fiction genre In doing so it argues the significant role played by the genre in ongoing discourse surrounding traditional and alternative forms of masculinity
