*Finding My Place* Anne Aly,2018-04-01 From Cairo to Canberra the irresistible story of an

irrepressible woman Anne Aly's influence will be felt for years to come. It sinks in how significant she may be to public life. The Good Weekend In 2016 Anne Aly was the first Australian Muslim woman, the first Egyptian born woman and the first counter terrorism expert to be elected to federal parliament. She was also most probably the first parliamentarian to have seen Zoolander 23 times. What am I doing here? she asked herself as she was sworn in with her hand on her English translation of the Quran. It's a question the former professor has raised more than once since she arrived in Australia aged two bearing the name Azza Mahmoud Fawzi Hosseini Ali el Serougi. The answer is a fascinating and moving story of a Muslim girl growing up in suburban Australia in the seventies, a girl who danced the divide between the expectations and values of their parents culture and that of their adopted land and whose yardstick for a normal Australian family was The Brady Bunch. Told with warmth, humour and insight, Finding My Place is an irresistible story by an irrepressible Australian woman who has truly found where she belongs and who continues to make her mark internationally and in public life.

### **The Cold Start Problem**

Andrew Chen, 2021-12-07 A startup executive and investor draws on expertise developed at the premier venture capital firm Andreessen Horowitz and as an executive at Uber to address how tech's most successful products have solved the dreaded cold start problem by leveraging network effects to launch and scale toward billions of users. Although software has become easier to build, launching and scaling new products and services remains difficult. Startups face daunting challenges entering the technology ecosystem, including stiff competition, copycats and ineffective marketing channels. Teams launching new products must consider the advantages of the network effect, where a product or service's value increases as more users engage with it. Apple, Google, Microsoft and other tech giants utilize network effects and most tech products incorporate them, whether they're messaging apps, workplace collaboration tools or marketplaces. Network effects provide a path for fledgling products to break through, attracting new users through viral growth and word of mouth. Yet most entrepreneurs lack the vocabulary and context to describe them, much less understand the fundamental principles that drive the effect. What exactly are network effects? How do teams create and build them into their products? How do products compete in a market where every player has them? Andrew Chen draws on his experience and on interviews with the CEOs and founding teams of LinkedIn, Twitch, Zoom, Dropbox, Tinder, Uber, Airbnb and Pinterest to offer unique insights in answering these questions. Chen also provides practical frameworks and principles that can be applied across products and industries. The Cold Start Problem reveals what makes winning networks thrive, why some startups fail to successfully scale and, most crucially, why products that create and compete using the network effect are vitally important today.
