**Imagining the Future: Science Fiction Cinema in the Early Cold War** Natalia Voinova,2012-11-27 Bachelor Thesis from the year 2012 in the subject Art History of Art grade 2 1 language English abstract Science fiction is always political as

it has the power to stage contemporary problems through the lens of impossible events it imagines theoretical futures out of present issues The essay will compare the use of science fiction in cinema in the USSR and the United States of the late 1950s and 1960s to coincide with the period of de Stalinisation and thaw in the USSR and late McCarthyism in the United States The genre provides an opportunity to express the scientific stand off between the two powers through fiction it is also a vehicle for dissemination of ideas and propaganda Post 1956 when the period of de Stalinisation officially began science fiction saw a carefully crafted rebirth as a tool to reflect the socialist ideal and quasi religious faith in science promoted by the Party Science fiction uniquely demands for an imaginative view of the future which corresponds with the Marxist Leninist future oriented ideology The fear of external influence from the enemy for both countries results in heavily ideological cinema especially in the sci fi genre as an imagined reflection of contemporary issues onto a fictional future The themes for American science fiction of this period are hyperbolised monsters and invasion which reflect the fear of the otherness of the Soviet Union and its threat on domestic ideals Soviet science fiction films focus on the heroic Soviet man who frequently receives calls for help from outer space and overcomes great trials to save those not living in utopia

**Film Aesthetics** Thomas M. Sipos,2014-01-10 This richly informed study analyzes how various cinematic tools and techniques have been used to create horror on screen the aesthetic elements sometimes not consciously noticed that help to unnerve frighten shock or entertain an audience The first two chapters define the genre and describe the use of pragmatic aesthetics when filmmakers put technical and budgetary compromises to artistic effect Subsequent chapters cover mise en scene framing photography lighting editing and sound and a final chapter is devoted to the aesthetic appeals of horror cinema Instructors considering this book for use in a course may request an examination copy here      *A Servant of the Public* Anthony Hope,1905 It is easy to be enthusiastic about the story It is psychologic but with a difference the difference being the bright and compelling interest of Mr Hope s dialogue and the smiling sanity of his spirit Imagine much that is best in Meredith or James and all that is best in Anthony Hope and you have a fair idea of A Servant of the Public It is not the conventional story of the stage with glib talk of the greenroom and intimate glimpses behind the footlights It is the story of an actress off rather than on the stage an analysis of the theatrical perhaps artistic temperament
